QUESTION 1

HOTSPOT

You are the Microsoft Office 365 administrator for a company.

The company has the following requirements:

1.
Users must be able to use incompatible applications on a Windows 10 device.
2.
Cloud-based applications must use the same credentials as on-premises applications.
3.
Users must be prevented from copying company data from managed applications installed on unmanaged devices.

You need to determine which technologies should be used for each requirement.

Which technologies should be used? To answer, select the appropriate options in the answer area.
