- A. ECDSA
- B. ECDH
- C. ED25519
- D. RSA

Correct Answer: AD

---

#### QUESTION 3

A node with Erasure Coding fails. What is the impact?

- A. The node stops utilizing Erasure Coding.
- B. Potentially increased amount of data stored in the SSD tier.
- C. Increased Controller VM CPU Load.
- D. AQS unable to do deduplication during the Erasure Coding failure.

Correct Answer: C

---

#### QUESTION 4

An administrator is preparing to deploy a new application on an AHV cluster, Security requirements dictate that all virtual servers supporting this application must be prevented from communicating with unauthorized hosts. Which option would achieve this goal?

- A. Create a new VLAN, create a subnet on the cluster with the VLAN tag, deploy servers with vNICs in the new subnet.

B. Create a new Application Security Policy restricting communication to the authorized hosts and apply it to the servers in enforce mode.

C. Create a new solution Environment policy apply it to the new servers and all authorized hosts.

D. Create new VPC subnet and assign to an existing VPC assign the IP prefix and gateway for the subnet, deploy servers with vNIC5 in the new subnet.

Correct Answer: B

Explanation: An Application Security Policy is a security feature in Nutanix AHV that can be used to restrict network communication between virtual servers based on a variety of criteria, such as IP address, port, and protocol. By creating a policy that restricts communication to authorized hosts and applying it to the servers in enforce mode, the administrator can prevent unauthorized communication between virtual servers.

## QUESTION 5

An administrator wants to reduce the largest amount of alert emails received from Prism Central.

Which two settings should the administrator customize to meet this requirement? (Choose two)

A. Skip empty digest email

B. Every Single Alert

C. Daily Digest

D. Email Recipients

Correct Answer: CD

Explanation: According to the Nutanix Support and Insights website<sup>1</sup>, you can configure alert emails through Prism Central by enabling or disabling customer email notification for each alert. You can also modify or create custom alert policies for different entities and clusters<sup>23</sup>.
