QUESTION 1

Refer to the following exhibit:

```
config system global
set workspace-mode normal
end
```

Which of the following statements are true based on this configuration? (Choose two.)

A. The same administrator can lock more than one ADOM at the same time

B. Ungraceful closed sessions will keep the ADOM in a locked state until the administrator session times out

C. Unlocking an ADOM will submit configuration changes automatically to the approval administrator

D. Unlocking an ADOM will install configuration automatically on managed devices

Correct Answer: AB

QUESTION 2

What is the purpose of ADOM revisions?

A. To create System Checkpoints for the FortiManager configuration.

B. To save the current state of the whole ADOM.

C. To save the current state of all policy packages and objects for an ADOM.

D. To revert individual policy packages and device-level settings for a managed FortiGate by reverting to a specific ADOM revision

Correct Answer: C

QUESTION 3

In addition to the default ADOMs, an administrator has created a new ADOM named Training for FortiGate devices. The administrator sent a device registration to FortiManager from a remote FortiGate. Which one of the following statements is true?

A. The FortiGate will be added automatically to the default ADOM named FortiGate.

B. The FortiGate will be automatically added to the Training ADOM.

C. By default, the unregistered FortiGate will appear in the root ADOM.

D. The FortiManager administrator must add the unregistered device manually to the unregistered device manually to the Training ADOM using the Add Device wizard

Correct Answer: C

QUESTION 4

An administrator is replacing a device on FortiManager by running the following command:

execute device replace sn .

What device name and serial number must the administrator use?

A. Device name and serial number of the original device.

B. Device name and serial number of the replacement device.

C. Device name of the replacement device and serial number of the original device.

D. Device name of the original device and serial number of the replacement device.

Correct Answer: D

QUESTION 5

An administrator has assigned a global policy package to custom ADOM1. Then the administrator creates a new policy package, Fortinet, in the custom ADOM1. Which statement about the global policy package assignment to the newly-created policy package Fortinet is true?

A. When a new policy package is created, it automatically assigns the global policies to the new package.

B. When a new policy package is created, you need to assign the global policy package from the global ADOM.

C. When a new policy package is created, you need to reapply the global policy package to the ADOM.

D. When a new policy package is created, you can select the option to assign the global policies to the new package.

Correct Answer: A
