**QUESTION 1**

A customer has the following requirements:

- local peer with two Internet links
- remote peer with one Internet link
- secure traffic between the two peers
- granular control with Accept policies

Which solution provides security and redundancy for traffic between the two peers?

- A. a fully redundant VPN with interface mode configuration
- B. a partially redundant VPN with interface mode configuration
- C. a partially redundant VPN with tunnel mode configuration
- D. a fully redundant VPN with tunnel mode configuration

Correct Answer: B

---

**QUESTION 2**

Which three configuration scenarios will result in an IPsec negotiation failure between two FortiGate devices? (Choose three.)

- A. mismatched phase 2 selectors
- B. mismatched Anti-Replay configuration
- C. mismatched Perfect Forward Secrecy
- D. failed Dead Peer Detection negotiation
- E. mismatched IKE version

Correct Answer: C

In IPsec negotiations, Perfect Forward Secrecy (PFS) ensures that each new cryptographic key is unrelated to any previous key. Either enable or disable PFS on both the tunnel peers; otherwise, the LAN-to-LAN (L2L) IPsec tunnel is not established

---

**QUESTION 3**

A customer wants to implement a RADIUS Single Sign On (RSSO) solution for multiple FortiGate devices. The customer's network already includes a RADIUS server that can generate the logon and logoff accounting records. However, the

RADIUS server can send those records to only one destination.

What should the customer do to overcome this limitation?

- A. Send the RADIUS records to an LDAP server and add the LDAP server to the FortiGate configuration.
- B. Send the RADIUS records to an RSO Collector Agent.
- C. Send the RADIUS records to one of the FortiGate devices, which can replicate them to the other FortiGate units.
- D. Use the RADIUS accounting proxy feature available in FortiAuthenticator devices.

Correct Answer: B

#### QUESTION 4

Your company uses a cluster of two FortiGate 3600C units in active-passive mode to protect the corporate network. The FortiGate cluster sends its logs to a FortiAnalyzer and you have configured scheduled weekly reports for the Internet

bandwidth usage of each corporate VLAN. During a scheduled maintenance window, you make a series of configuration changes. When the next FortiAnalyzer weekly report is generated, you notice that Internet bandwidth usage reported by the FortiAnalyzer is far less than expected.

What is the reason for this discrepancy?

- A. You applied an antivirus profile on some of the policies, and no traffic can be accelerated.
- B. You disabled all security profiles on some of the firewall policies, and the traffic matching those policies is now accelerated.
- C. You enabled HA session-pickup, which is turn disabled session accounting.
- D. You changed from active-passive to active-active, causing the session traffic counters to become inaccurate.

Correct Answer: D

Because of Active/Active failover traffic segregate to boxes where it reduces the bandwidth utilization

---

#### QUESTION 5

Referring to the exhibit, users are reporting that their FortiPhones ring but when they pick up, they cannot hear each other. The FortiPhones use SIP to communicate with the SIP Proxy Server and RTP between the phones. Which configuration change will resolve the problem?

A.

```
config voip profile
  edit default
    config sip
      set ips-rtp disable
    end
  end
end
```

B.

```
config system settings
  set sip-tcp-port 5060
end
```

C.

```
config firewall policy
  edit 1
    set srcintf port18
    set dstintf port19
    set srcaddr 192.168.234.3/24
    set dstaddr 192.168.235.0/24
    set action accept
    set schedule always
    set service SIP
    set utm-status enable
    set voip-profile default
  next
end
```

D.

```
config firewall policy
  edit 1
    set srcintf port19
    set dstintf port18
    set srcaddr 192.168.235.0/24
    set dstaddr 192.168.234.0/24
    set action accept
    set schedule always
    set service SIP
    set utm-status enable
    set voip-profile default
  next
```

**eClearer pictures and no water-mask in the Premium Product**

A. B. C. D.

Correct Answer: C
