**QUESTION 1**

What indicates an artifact instance in UML notation? (Choose two)

- A. memo box
- B. keyword
- C. syntactically well-formed file name
- D. single sheet icon with a folded-over corner
- E. class box with two smaller rectangles on its left side

Correct Answer: BD

QUESTION 2

Which must be true in order to use a delegation connector to connect two components?

- A. The components must have complex ports.
- B. One component must be a subtype of the other.
- C. The components must be related to each other via a dependency.
- D. One component must be part of the internal realization of the other component.

Correct Answer: D

QUESTION 3

Assume component A provides an interface P and requires an interface R. In order for a component B to be substituted for component A, what must be true?

- A. Components must be related to each other via a dependency.
- B. The interface that A requires must be type conformant with respect to the interface that B provides.
- C. The interface that B requires must be type conformant with respect to the interface that A provides.
- D. The interface that B requires must be type conformant with respect to the interface that A requires, and the interface that B provides must be type conformant with respect to the interface that A provides.

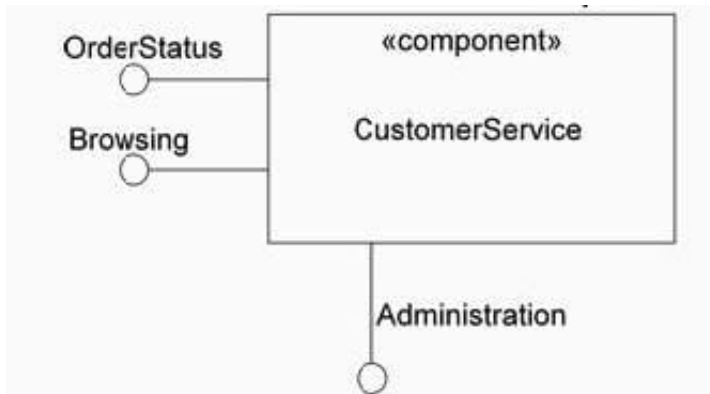

Correct Answer: D

QUESTION 4

Refer to the exhibit.

What is the significance of the fact that the Administration interface symbol extends downward rather than leftward?

- A. There is no significance.
- B. The interface cannot be provided via a port.
- C. The interface does not require a delegation connector.
- D. The interface is not publicly visible on the component.
- E. The interface is the primary interface for the component.
- F. The interface is the primary provided interface for the component.

Correct Answer: A

QUESTION 5

What is true about a pseudostate?

- A. not a state but a vertex
- B. a state entry or exit point
- C. a specification of a potential state
- D. a state that can be specialized for different purposes

Correct Answer: A
