QUESTION 1

What steps would a user take to determine the port that was specified when a Content Server Connection within Deployment Manager was created?

- A. Review the Port setting within Server Properties under Tools menu.
- B. Review the Port setting by right clicking on the Content Server Connection and selecting the Server Definition option.
- C. Review the Port setting within the Server Connection entry by viewing the properties of the Content Server Connection and expanding the Server Properties.
- D. Review the Port setting within Server Definition under Tools menu.

Correct Answer: C

QUESTION 2

Which application allows the running of CandDS jobs via a web interface?

- A. Deployment Manager
- B. BIRT Client
- C. Deployment Portal
- D. Scoring Service

Correct Answer: C

QUESTION 3

Which statement correctly applies to the versioning capability of CandDS?

- A. Version control and object version labels ensure the latest versions of assets are being used in production processes.
- B. Old object versions are automatically deleted to preserve storage.
- C. An analyst can store a version of a file in development, and modify it until it is finalized and ready to be moved into a production process.
- D. Versioning refers to the ability to merge multiple object versions into one version.

Correct Answer: C

QUESTION 4

A user wants to link the running of a CandDS job to a successful DB2 database update. Which type of job schedule allows interaction with 3rd party applications?

- A. Time-based schedule
- B. On demand schedule
- C. Sequential schedule
- D. Message-based schedule

Correct Answer: D

QUESTION 5

To display information such as version number and installed packages for the current CandDS installation, an administrator can click on the About entry within the Browser-based Deployment Manager. Which URL format should an administrator enter if she wanted to log into the Browser-based Deployment Manager?

- A. <http://:/admin/console>
- B. <http://:/security/login>
- C. <http://:/admin/login>
- D. <http://:/security/admin>

Correct Answer: B
