## QUESTION 1

An airline has the following requirement:

A passenger requiring a service animal must document the type of animal, the size of animal, and any relevant medical information the crew may need during the flight. The application prompts the passenger for this information when the passenger declares that they will travel with a service animal.

How do you configure the case life cycle to meet this requirement?

- A. Configure a stage in the case life cycle for service animal accommodation and apply a stage validation condition.
- B. Add a process to the case life cycle for service animal accommodation and apply a condition to determine when to run the process.
- C. Apply an optional action to the appropriate stage to allow the passenger to provide the information as needed.
- D. Create a child case for service animal accommodation to automatically resolve unless the passenger required the accommodation.
