**QUESTION 2**

A customer wants to copy the contents of a previous order to their current order. What rule type do you use to copy the order contents?

- A. Data page
- B. Declare expression
- C. Data transform
- D. Function

Correct Answer: C

**QUESTION 3**

You are developing a case type that processes scholarship applications. Scholarship applications advance based on the standardized test scores of the applicants. A decision shape directs the process flow. You want to test whether the process flows correctly, but you have not fully configured the user interface so that applicants can enter their standardized test scores.

How do you test that the process flows correctly based on the decision?

- A. Use the Run Rule window to create a unit test to evaluate the flow rule.
- B. Use a declare expression to set a value for the standardized test score field.
- C. Use Live UI to see how the case processes and if an error occurs.
- D. Use the Clipboard tool to set a value for the standardized test score field.

Correct Answer: B

---

#### QUESTION 4

A development team plans to enhance functionality of an existing application by changing several user interface rules. The team would like to pilot the enhancements to a small group of users before rolling the changes out to the entire user base.

What approach maximizes reuse and maintainability?

- A. Place the updated rules into a new minor version of the ruleset and include the new ruleset version in a new application.
- B. Place the updated rules into a new ruleset and include the new ruleset in a new application.
- C. Place the updated rules into a new ruleset and include the new ruleset in a new version of the application.
- D. Place the updated rules into a new minor version of the ruleset and include the new ruleset version in a new version of the application.

Correct Answer: A

---

#### QUESTION 5

An on-demand transportation application has a Conversation preference data type. When customers use the application to request a ride, they can specify their conversation preference: whether they would like to talk to their driver or if they would prefer silence. Company stakeholders are interested in analyzing the conversation preference data.

How is the Conversation preference data type sourced?

- A. Local system of record
- B. No system of record
- C. External system of record

Correct Answer: C
