**QUESTION 3**

You create an application for employees to submit timesheets. Employees enter work, vacation, and sick time for a particular week.

On the entry form, employees see a summary of the total hours entered.

After the employee submits the timesheet, the application displays remaining vacation and sick time for the employee.

You configure the user view that displays remaining vacation and sick time. The balance calculates by subtracting the vacation time and sick time for the week from the current vacation and sick time balances.

Which configuration option is used to summarize the remaining vacation and sick time?

- A. Use a When rule. When the application references the remaining vacation and sick time, each value calculates.
- B. Use declarative processing. Whenever the vacation time or sick time entries change, the remaining vacation and sick

time calculate.

C. Use pyDefault and pySetFieldDefaults. When the process invokes the data transforms, the remaining vacation and sick time calculate.

D. Use procedural processing with a data transform. Remaining vacation and sick time calculate after the user submits a timesheet.

Correct Answer: B

---

#### QUESTION 4

A customer calls to apply for a new bank account. The customer service representative (CSR) needs to perform an assignment named Select Account Type. During the discussion, the customer can request written information regarding different account types.

Select the case lifecycle design that satisfies this requirement.

A. Add a user view for requesting information to the Select Account Type assignment.

B. Add an optional action to the stage that contains the Select Account Type assignment.

C. Add a case-wide optional action.

D. Add a router to the Select Account Type assignment.

Correct Answer: B

---

#### QUESTION 5

An order fulfillment case type allows a customer to update user profile information during the order placement stage. The user profile consists of the following three pages: Account ID and password Customer contact information A list of open orders with status of each order

How do you configure the case type to allow customers to update any of the user profile pages at any time during case processing?

A. Add a set of optional actions to the case workflow.

B. Add an alternate stage to the case life cycle.

C. Add an optional process to the case workflow.

D. Add a button for each profile page to each assignment.

Correct Answer: A
