QUESTION 1

Which two of the following use cases do you implement by using one or more calculated fields? (Choose Two)

A. A sales representative wants to quote the cost of an insurance policy based on selected coverage options.

B. An accountant wants to list the largest order for the last month, for each customer account.

C. A project manager wants to estimate the cost of painting a banquet hall based on labor and materials required.

D. A certification manager wants to determine the number of exams conducted at each testing facility in the current quarter.

Correct Answer: AC

QUESTION 2

You are designing a form for an online bookstore to show new arrivals. Which layout do you use to display the book cover pictures, as shown in the image?

A. Dynamic layout

B. Repeating dynamic layout

C. Column layout

D. Screen layout

Correct Answer: A

QUESTION 3

Select each description on the left and drag it to the correct field type on the right.

Select and Place:

Correct Answer:

Description		Answer Area	
		Description	Field Type
		A collection of applicable discount codes	Picklist
		A collection of related values that makes up a single employee record	Field group
		A collection of unique shipping addresses associated with a customer account	Field group list

QUESTION 4

You are developing a case type to process visa applications. As part of the process, applicants need to schedule an interview with the consulate. A child Interview case is created for the interview process and assessment. Following the interview, it typically takes 48 hours for the consulate to reach a decision. For the visa case to proceed to applicant notification, the Interview case needs to be resolved.

How do you configure a case type to achieve the required behavior?

A. Add a Create Case step that creates the Interview child case. Following this step, add a Wait step that pauses the parent case until the Interview case reaches a status of Resolved and after 48 hours have elapsed.

B. Add a Create Case step that creates the Interview child case. Following this step, add a Wait step that pauses the parent case until the Interview case reaches a status of Resolved.

C. Add a Create Case step that creates the Interview child case. There is no need to add a Wait step.

D. Add a Create Case step that creates the Interview child case. Following this step, add a Wait step that pauses the parent case until 48 hours have elapsed.

Correct Answer: D

QUESTION 5

Which two conditions do you test with a unit test? (Choose Two)

A. A data page populates without any errors.

B. A property value is set correctly by a data transform.

C. An application displays user views for 20 users within three seconds.

D. An application is successfully migrated to a test system.

Correct Answer: AB
