QUESTION 1

Which two of the following use cases do you implement by using one or more calculated fields? (Choose Two)

- A. A sales representative wants to quote the cost of an insurance policy based on selected coverage options.
- B. An accountant wants to list the largest order for the last month, for each customer account.
- C. A project manager wants to estimate the cost of painting a banquet hall based on labor and materials required.
- D. A certification manager wants to determine the number of exams conducted at each testing facility in the current quarter.

Correct Answer: AC

QUESTION 2

What two pieces of information comprise a data element? (Choose Two)

- A. The name of the referencing user view
- B. The name of the data element
- C. The name of the clipboard page
- D. The value of the data element

Correct Answer: AD

QUESTION 3

You are implementing a data entry screen to include an asset ID field to track company equipment. All asset IDs are eight characters in length. The first three characters are letters followed by a five-digit number. Which validation approach restricts entries for the asset ID field to the required format?

- A. Validate rule
- B. Min/Max characters
- C. Text data type
- D. Edit Validate rule

Correct Answer: D

**QUESTION 4**

In the Answer area, identify the type of data measured in each report.

Hot Area:

Answer Area

<u>Report</u>	<u>Type of Data</u>	
	Business Data	Process Data
Deliveries per month versus damaged goods	<input type="radio"/>	<input type="radio"/>
Customer support cases handled per month	<input type="radio"/>	<input type="radio"/>
Profit margin by types of goods sold monthly	<input type="radio"/>	<input type="radio"/>
Sales training investment versus annual revenue	<input type="radio"/>	<input type="radio"/>
Average number of days for customer deliveries	<input type="radio"/>	<input type="radio"/>

Correct Answer:

**Answer Area**

<u>Report</u>	<u>Type of Data</u>	
	Business Data	Process Data
Deliveries per month versus damaged goods	<input checked="" type="radio"/>	<input type="radio"/>
Customer support cases handled per month	<input type="radio"/>	<input checked="" type="radio"/>
Profit margin by types of goods sold monthly	<input checked="" type="radio"/>	<input type="radio"/>
Sales training investment versus annual revenue	<input checked="" type="radio"/>	<input type="radio"/>
Average number of days for customer deliveries	<input type="radio"/>	<input checked="" type="radio"/>

QUESTION 5

Apartment tenants submit maintenance requests that specify their name, address, request type, and description of the request. The apartment management company often receives multiple requests from a single address about the same issue. The company wants to identify duplicate maintenance requests that are submitted less than 30 days apart.

Which three configurations, when applied in combination on the Search duplicate cases step, achieve this goal? (Choose Three)

- A. Configure a time period for the request date as a weighted condition.
- B. Configure the apartment address as a weighted condition.
- C. Configure the apartment address as a basic condition.
- D. Configure the request type as a weighted condition.
- E. Configure the tenant name as a basic condition.

Correct Answer: ABD
