QUESTION 1

A form listing nearby restaurants has four columns:

Restaurant name

Restaurant location

Thumbnail image of the seating area

Make reservation (check box)

You want to ensure that users have the information they need to make a reservation regardless of screen size. When viewed on a small screen, you do not need to display the images.

What three configuration steps do you take to support this requirement? (Choose Three)

- A. Set the importance of the image column to Secondary.
- B. Set the importance of the Make reservation column to Primary.
- C. Set the importance of the image column to Other.
- D. Set the importance of the Restaurant name and Make reservation columns to Primary.
- E. Set the importance of the Restaurant location and Make reservation columns to Secondary.
- F. Set the importance of the Restaurant name column to Primary.

Correct Answer: CEF

QUESTION 2

Which two configuration steps must be performed together to record a unit test for automated testing? (Choose Two)

- A. Add a test case to the Automated Testing landing page.
- B. Select a ruleset that is configured to store the results of the test.
- C. Select a ruleset that is configured to store automated test cases.
- D. Add an assertion to define an expected result.

Correct Answer: AD

QUESTION 3

You configure an application to allow users to download a mobile app. When users select one of the three supported platforms (Android, iOS, or Windows Mobile), the application opens a new window pointing to the appropriate app store. How do you configure this behavior?

- A. Add a button for each platform and configure an action set for each button. In each action set, specify a click event and add an action that opens the vendor's URL in a window.
- B. Add one button and configure three action sets. In each action set, specify a click event and add an action that opens the vendor's URL in a window.
- C. Add one button and configure one action set. In the action set, specify a click event with three actions to open each vendor URL in a window. Apply a when rule to each action to determine the correct URL.
- D. Add three check boxes and one button. For each check box, configure an action set with a click event to set the value of the URL. For the button, configure an action set with a click event to open the URL in a window.

Correct Answer: A

QUESTION 4

A bookseller maintains a database of more than 10,000 book titles. You have been asked to configure a form that allow users to select a book by title.

How do you configure the form?

- A. Add a drop-down control and source the data from the property value used in the control.
- B. Add a drop-down control and Source the data using a data page.
- C. Add an autocomplete control and Source the data using a data page.
- D. Add an autocomplete control and source the data from the clipboard work page.

Correct Answer: C

QUESTION 5

Your online shopping application serves international customers. You need to define a Data Page that holds currency exchange rates. All users accessing the application need to use the information.

The Scope of this Data Page should be set to _____.

- A. Application
- B. Node
- C. Thread
- D. Requestor

Correct Answer: B
