QUESTION 1

Which two configuration steps must be performed together to record a unit test for automated testing? (Choose Two)

- A. Add a test case to the Automated Testing landing page.
- B. Select a ruleset that is configured to store the results of the test.
- C. Select a ruleset that is configured to store automated test cases.
- D. Add an assertion to define an expected result.

Correct Answer: AD

QUESTION 2

You need to localize correspondence into a language that is unavailable in the Pega language pack. Which option satisfies the requirement?

- A. Leverage translation services SOAP calls and enable records for translation.
- B. Configure a field value record that contains the correspondence text.
- C. Create the Translation rule manually and include the rule in the application ruleset.
- D. Run the Localization wizard and add translations to Translation.html.

Correct Answer: D

QUESTION 3

You are implementing a data entry screen to include an asset ID field to track company equipment. All asset IDs are eight characters in length. The first three characters are letters followed by a five-digit number. Which validation approach restricts entries for the asset ID field to the required format?

- A. Validate rule
- B. Min/Max characters
- C. Text data type
- D. Edit Validate rule

Correct Answer: D

QUESTION 4

A reservation process allows customers to reserve a flight, hotel room, and rental car as part of a travel itinerary. Which configuration displays a Select flight insurance check box only when the itinerary includes a flight?

- A. A disable condition (when rule) that is applied to the section with the flight insurance information.
- B. A required condition (when rule) that is applied to the Select flight insurance check box.
- C. A visibility condition (when rule) that is applied to the Select flight insurance check box.
- D. A disable condition (when rule) that is applied to the Select flight insurance check box.

Correct Answer: C

QUESTION 5

You have been asked to create a report definition that includes information about the sales offices and sales representatives. The manager wants to access the report in the Report Browser in the user portal. The manager also wants to include the report in a new report category specifically for the sales group. What two configurations are required to support this request? (Choose Two)

- A. Select the option in the Report Browser that allows users to view your report.
- B. Create a report category rule for sales office reports.
- C. Select the report definition option that displays your report in the Report Browser.
- D. Add a report category for sales group reports in the Report Browser.

Correct Answer: CD
