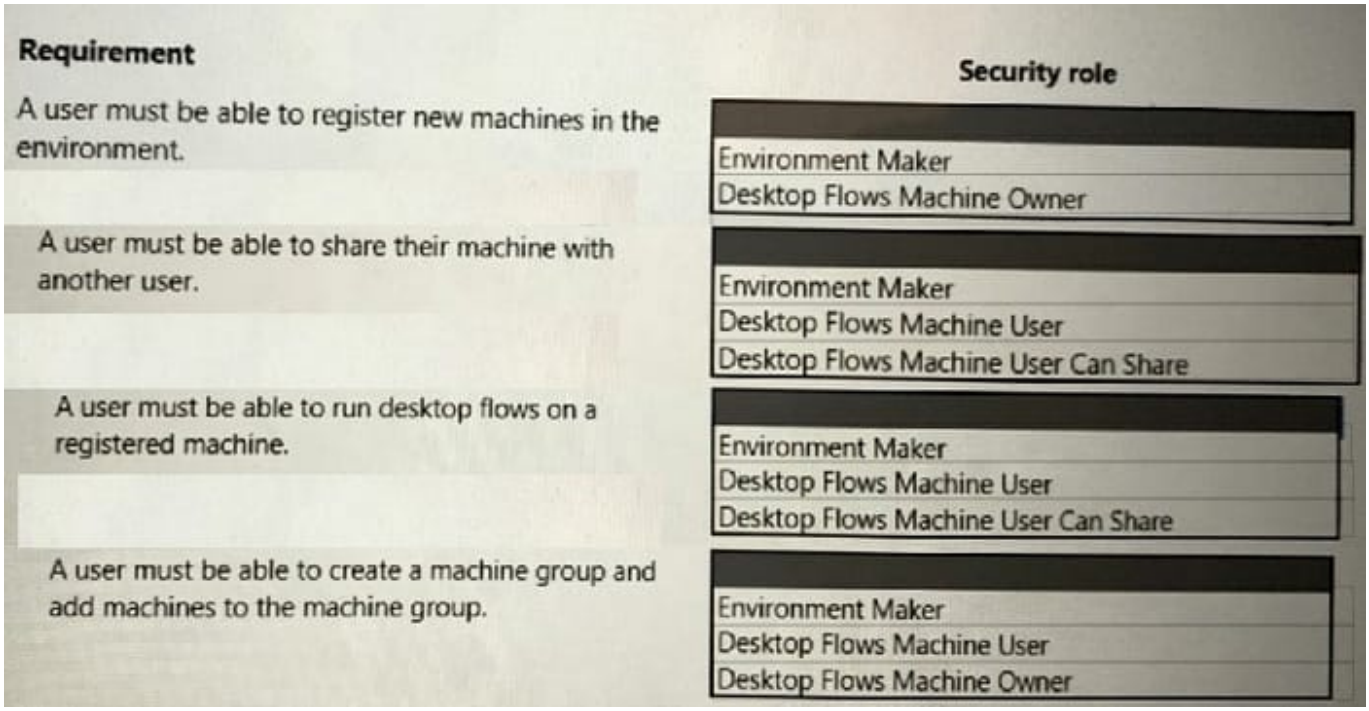
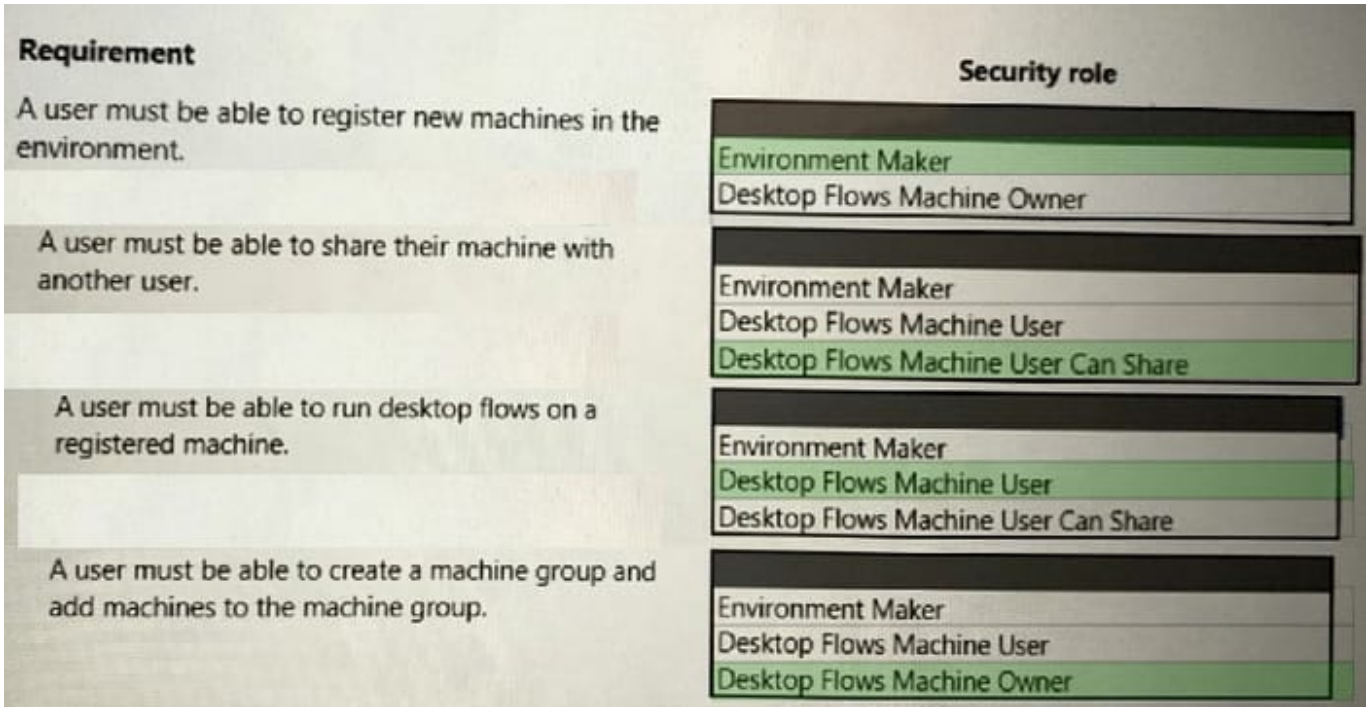
NOTE:Each correct selection is worth one point.

Hot Area:



Correct Answer:



QUESTION 4

You are creating automation solutions for a company. You create a cloud flow that includes a Scope action. What is the purpose of the Scope action?

A. Run a group of actions based on conditional input.

B. Group actions together and ensure that all actions succeed or fail as a group.

C. Run a group of actions based on input from a switch statement

D. Terminate a flow run.

Correct Answer: B

QUESTION 5

You need to implement security to resolve the invoice data issue

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Clear the Create and Delete permissions. Set the Read permission and Write permission values to Organization.

B. Select the Finance role, select Custom Entities and navigate to the table.

C. In Microsoft Power Platform admin center, navigate to the Users section.

D. In Microsoft Power Platform admin center, navigate to the Security roles section.

E. Clear the Create and Delete permissions. Set the Read permission and Write permission values to Business unit.

F. Select the Finance role select Core Records, and then navigate to the table.

Correct Answer: BDE

To implement security to resolve the invoice data issue, you need to perform three actions:

1.

In Microsoft Power Platform admin center, navigate to the Security roles section.This is where you can manage the security roles for your environment and assign them to users or teams.

2.

Select the Finance role, select Custom Entities and navigate to the table. This is where you can configure the access level for each entity in your environment based on your security role.

3.

Clear the Create and Delete permissions. Set the Read permission and Write permission values to Business unit. This will restrict users with this role from creating or deleting records in this table, but allow them to read or write records within their business unit.
