QUESTION 1

You are creating automation solutions for a company. You create a cloud flow that includes a Scope action. What is the purpose of the Scope action?

A. Run a group of actions based on conditional input.

B. Group actions together and ensure that all actions succeed or fail as a group.

C. Run a group of actions based on input from a switch statement

D. Terminate a flow run.

Correct Answer: B

QUESTION 2

DRAG DROP

A company is using SAP in a data center. The SAP environment uses the default configuration.

The company plans to automate the creation of vendors in SAP after data is approved in a SharePoint list.

You need to recommend a solution for the automation.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

Select and Place:

Actions

| Register a machine |
| Create an automated cloud flow |
| Add a Call SAP function (V2) action |
| Configure an SAP ERP connection |
| Configure an on-premises data gateway |
| Create an instant cloud flow |
| Record steps in SAP |
| Create a desktop flow |

Answer Area

Correct Answer:

Actions

| Register a machine |
| Create an automated cloud flow |
| |
| |
| Configure an on-premises data gateway |
| Create an instant cloud flow |
| |
| |

Answer Area

| Create a desktop flow |
| Configure an SAP ERP connection |
| Add a Call SAP function (V2) action |
| Record steps in SAP |

QUESTION 3

DRAG DROP

You need to implement a solution to manage the priority of incoming orders.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions

Edit the desktop flow.

Edit the cloud flow.

Modify the **Run a flow built with Power Automate for desktop** action.

Change the desktop flow's priority to High.

Set the priority value based on the volume for an order.

Set the desktop flow's queue order based on the volume for an order.

Select the desktop flow and then select **Move to top**.

Answer Area

Correct Answer:

Actions

Edit the desktop flow.

Edit the cloud flow.

Modify the **Run a flow built with Power Automate for desktop** action.

Change the desktop flow's priority to High.

Set the priority value based on the volume for an order.

Set the desktop flow's queue order based on the volume for an order.

Select the desktop flow and then select **Move to top**.

Answer Area

Edit the cloud flow.

Modify the **Run a flow built with Power Automate for desktop** action.

Set the priority value based on the volume for an order.

1.

Edit the cloud flow.

2.

Modify the Run a flow built with Power Automate for desktop action.

3.

Set the priority value based on the volume for an order.

To implement a solution to manage the priority of incoming orders, you need to perform three actions in sequence:

1.

Edit the cloud flow that triggers the desktop flow. This is where you can define the logic for setting the priority value based on the volume for an order1.

2.

Modify the Run a flow built with Power Automate for desktop action in the cloud flow. This is where you can pass the priority value as a parameter to the desktop flow1.

3.

Set the priority value based on the volume for an order in the desktop flow. This is where you can use the priority value as a dynamic content to determine how the desktop flow will run on the target machine1.

QUESTION 4

HOTSPOT

You create an environment for a company. You need to configure security to meet the company\\'s requirements and follow the principle of least privilege. Which security roles should you assign? To answer, select the appropriate options in the

answer area.

NOTE:Each correct selection is worth one point.

Hot Area:

Answer Area

Requirement

A user must be able to register new machines in the environment.

▼
Environment Maker
Desktop Flows Machine Owner

A user must be able to share their machine with another user.

▼
Environment Maker
Desktop Flows Machine User
Desktop Flows Machine User Can Share

A user must be able to run desktop flows on a registered machine.

▼
Environment Maker
Desktop Flows Machine User
Desktop Flows Machine User Can Share

A user must be able to create a machine group and add machines to the machine group.

▼
Environment Maker
Desktop Flows Machine User
Desktop Flows Machine Owner

Correct Answer:

Answer Area

Requirement

A user must be able to register new machines in the environment.

Environment Maker
Desktop Flows Machine Owner

A user must be able to share their machine with another user.

Environment Maker
Desktop Flows Machine User
Desktop Flows Machine User Can Share

A user must be able to run desktop flows on a registered machine.

Environment Maker
Desktop Flows Machine User
Desktop Flows Machine User Can Share
