QUESTION 1

Your company has an OU that contains your sales team and an OU that contains your market research team. The sales team is often a target of mass email from legitimate senders, which is distracting to their job duties. The market research team also receives that email content, but they want it because it often contains interesting market analysis or competitive intelligence. Constant Contact is often used as the source of these messages. Your company also uses Constant Contact for your own mass email marketing. You need to set email controls at the Sales OU without affecting your own outgoing email or the market research OU.

What should you do?

A. Create a blocked senders list as the Sales OU that contains the mass email sender addresses, but bypass this setting for Constant Contact emails.

B. Create a blocked senders list at the root level, and then an approved senders list at the Market Research OU, both containing the mass email sender addresses.

C. Create a blocked senders list at the Sales OU that contains the mass email sender addresses.

D. Create an approved senders list at the Market Research OU that contains the mass email sender addresses.

Correct Answer: A

QUESTION 2

You are supporting an investigation that is being conducted by your litigation team. The current default retention policy for mail is 180 days, and there are no custom mail retention policies in place. The litigation team has identified a user who is central to the investigation, and they want to investigate the mail data related to this user without the user\\'s awareness.

What two actions should you take? (Choose two.)

A. Move the user to their own Organization Unit, and set a custom retention policy

B. Create a matter using Google Vault, and share the matter with the litigation team members.

C. Create a hold on the user\\'s mailbox in Google Vault

D. Reset the user\\'s password, and share the new password with the litigation team.

E. Copy the user\\'s data to a secondary account.

Correct Answer: DE

QUESTION 3

Security and Compliance has identified that data is being leaked through a third-party application connected to G Suite You want to investigate using an audit log.

What log should you use?

QUESTION 5

In the years prior to your organization moving to G Suite, it was relatively common practice for users to create consumer Google accounts with their corporate email address (for example, to monitor Analytics, manage AdSense, and collaborate in Docs with other partners who were on G Suite.) You were able to address active employees\' use of consumer accounts during the rollout, and you are now concerned about blocking former employees who could potentially still have access to those services even though they don\\'t have access to their corporate email account.

What should you do?

A. Contact Google Enterprise Support to provide a list of all accounts on your domain(s) that access non-G Suite Google services and have them blocked.

B. Use the Transfer Tool for Unmanaged Accounts to send requests to the former users to transfer their account to your domain as a managed account.

C. Provide a list of all active employees to the managers of your company\\'s Analytics, AdSense, etc. accounts, so they can clean up the respective access control lists.

D. Provision former user accounts with Cloud Identity licenses, generate a new Google password, and place them in an OU with all G Suite and Other Google Services disabled.
