QUESTION 1

A practice guide for requirements elicitation offers the following information:

Disadvantage: Likely to be particularly time-consuming to conduct.

Disadvantage: Difficult to separate fact from opinion.

Advantage: Provides an opportunity to build rapport.

Advantage: Provides an opportunity to experience the business environment.

To which elicitation method does this extract refer?

- A. Focus group
- B. Interviews
- C. Observation
- D. Workshop

Correct Answer: B

QUESTION 2

A business analyst is in the process of validating a set of requirements produced for a new business initiative and the following needs agreement:

That the requirements...

- 1) Are within the scope of the project.
- 2) Can be verified when they have been implemented.
- 3) Express business needs clearly and correctly.

Who is responsible for this agreement?

- A. Developers, business owners, business analyst.
- B. Developers, testers, business sponsor.
- C. Testers, business owners, business analyst.
- D. Testers, business owners, business sponsor.

Correct Answer: A

QUESTION 3

A business analyst has been asked to ensure that all requirements are robust.

The following are potential characteristics of a requirement: A) Consistent B) Functional C) Tacit D) Technical E) Owned F) Relevant

Which of them are characteristics of a requirement that is robust?

A. A, B and D

B. A, E and F

C. B, C and D

D. C, E and F

Correct Answer: C

QUESTION 4

In order to understand the existing processes, Jools, a new business analyst at the Golden Cup Company, begins her investigation with reviewing the process documents and archived information. In a discussion with Alan, the project manager, she expresses the view that the processes all seem to be working, which surprises Alan. In his experience, the processes are all failing or not being followed as they should be, due to local interpretation and variation in working practices.

Jools's goal is to gain an independent perspective on the working practices and develop individual relationships with her new colleagues.

Which is the best set of techniques to help her achieve her goal?

A. Focus group and workshops.

B. Observation and interviews.

C. Scenarios and activity sampling.

D. Special purpose record and surveys.

Correct Answer: B

QUESTION 5

A business analyst working on a project has been informed that changes are required in a particular requirement; she has revisited the requirement set and is unable to determine other requirements that might be impacted by such changes.

Which element of requirements management appears to be missing?

A. Change control

B. Requirements cross-referencing

C. Requirements identification

D. Requirements origin and ownership

Correct Answer: C
