QUESTION 1

A WS-Policy definition can be attached to different parts of a _____ or to multiple _____. Select the correct answer.

- A. service activity, service activities
- B. service contract, service contracts
- C. service model, service models
- D. service line, service lines

Correct Answer: B

QUESTION 2

Which of the following statements makes sense? Select the correct answer.

- A. I have 3 REST services, 2 of which do not support the PUT method.
- B. I have 3 REST services, 2 of which have a PUT operation in the SOAP header schemas of their WSDL definitions.
- C. I have 3 REST services, 2 of which do not support HTTP.
- D. None of these statements make sense.

Correct Answer: A

QUESTION 3

Which of the following can be part of technical service contract? Select the correct answer.

- A. WSDL operation
- B. component method
- C. HTTP method
- D. Each of the above can be part of a technical service contract, depending on which technology platform is chosen to build the service.

Correct Answer: D

QUESTION 4

Which of the following technologies can be used to establish a federated data architecture capable of exposing standardized data models while abstracting disparate data sources? Select the correct answer.

- A. XML Schema
- B. XQuery
- C. WS-BPEL
- D. WS-Federation

Correct Answer: A

QUESTION 5

Which of the following statements is true? Select the correct answer.

- A. WS-Coordination establishes a base coordination framework for which WS-Addressing and WS-Routing provide additional protocols and rules.
- B. WS-Coordination establishes a base coordination framework for which XML Schema and WS-Addressing provide additional protocols and rules.
- C. WS-Coordination establishes a base coordination framework for which WS-AtomicTransaction and WS-BusinessActivity provide additional protocols and rules.
- D. WS-Coordination does not establish a base coordination framework. The name of the specification is deceiving as it actually defines a series of generic routing protocols.

Correct Answer: C
