**QUESTION 1**

Which of the following statements makes sense? Select the correct answer.

- A. I designed a unique XML schema for each of my REST services so that the HTTP methods used by these services are consistently named.
- B. My REST services are limited to the use of the GET HTTP method because only one XML schema was designed for all of them. In order to support additional HTTP methods, additional XML schemas will need to be designed due to the inherent dependency HTTP has on the XML Schema Definition Language.
- C. I designed my REST services to share the same XML schema.
- D. XML schemas cannot be used by REST services.

Correct Answer: C

QUESTION 2

Which of the following statements are false? SELECT ALL THAT APPLY

- A. A service enters the service consumer role only when it initiates contact with other service consumers.
- B. A service enters the service consumer role only when it accesses other services acting as intermediaries.
- C. A service enters the service consumer role when it initiates contact with other services acting as service providers, including those also acting as intermediaries.
- D. A service cannot enter the service consumer role.

Correct Answer: ABD

QUESTION 3

Which of the following service designs are considered not supportive of service-orientation due to improper selection of technologies? SELECT ALL THAT APPLY

- A. A REST service designed to respond to service consumers via standard HTTP response codes.
- B. A SOAP-based Web service designed with a service contract that includes WS-Policy definitions that disallow communication using SOAP messages.
- C. A reusable component-based service designed to reject messages containing XML so as to limit communication to RPC-centric MEPs.
- D. A SOAP-based Web service designed with a decoupled service contract that includes a standardized XML schema.

Correct Answer: BC

QUESTION 4

Which of the following are associated with the functionality provided by a typical enterprise service bus? Select the correct answer.

- A. reliable message delivery
- B. intermediate message routing
- C. temporary storage of messages in queues
- D. All of the above.

Correct Answer: D

QUESTION 5

A common, but older alternative to the XML Schema Definition Language is: Select the correct answer.

- A. Hypertext Markup Language
- B. Extensible Markup Language
- C. Document Type Definitions
- D. XML Data Model Definition Language

Correct Answer: C
