**QUESTION 1**

Which of the following statements accurately describes the difference between the Atomic Service Transaction pattern and the Compensating Service Transaction pattern?

- A. The Atomic Service Transaction pattern is more suitable in situations that require real-time activity processing, whereas the Compensating Service Transaction pattern is more suitable for long-running activity processing.
- B. The Atomic Service Transaction pattern provides support for the rollback of changes, whereas the Compensating Service Transaction pattern does not.
- C. The Atomic Service Transaction pattern does not rely on pre-defined alternative exception handling logic, whereas the Compensating Service Transaction pattern does.
- D. All of the above.

Correct Answer: D

QUESTION 2

The application of which pattern can address inconsistent service behavior exhibited when a service is required to access a shared database with inconsistent performance?

- A. Stateful Services
- B. Atomic Service Transaction
- C. Service Data Replication
- D. Asynchronous Queuing

Correct Answer: C

QUESTION 3

Which of the following represent common types of logic that can be placed within a service facade component?

- A. Behavior correction logic used to compensate for changes in the behavior of the core service logic.
- B. Protocol bridging logic that dynamically converts from one transport protocol to another at runtime.
- C. Relaying logic that simply relays input and output messages to and from the core service logic.
- D. Transformation logic that performs runtime data model or data format conversion.

Correct Answer: ABCD

QUESTION 4

Which of the following functions would not be suitable for a typical service agent?

- A. event logging
- B. message routing
- C. complex Web service composition
- D. error logging

Correct Answer: C

QUESTION 5

The service model most associated with the Process Abstraction and Orchestration patterns in general is:

- A. entity service
- B. utility service
- C. wrapper service
- D. None of the above.

Correct Answer: D
