QUESTION 1

You have a Microsoft 365 subscription that contains a user named User1.

You need to assign User1 permissions to search Microsoft Office 365 audit logs.

What should you use?

- A. the Azure Active Directory admin center
- B. the Microsoft Purview compliance portal
- C. the Exchange admin center
- D. the Microsoft 365 Defender portal

Correct Answer: C

QUESTION 2

You have a Microsoft 365 E5 subscription.

You need to review the compliance of the subscription with the General Data Protection Regulation (GDPR) by using Compliance Manager. The solution must minimize administrative effort.

What should you create first?

- A. an assessment
- B. an alert policy to monitor for score changes
- C. a template
- D. review assessments

Correct Answer: A

Data Protection Impact Assessment Under GDPR, data controllers are required to prepare a Data Protection Impact Assessment (DPIA) for processing operations that are 'likely to result in a high risk to the rights and freedoms of natural persons.' There is nothing inherent in Microsoft products and services that need the creation of a DPIA. Rather, it depends on the details of your Microsoft configuration. A list of details that must be considered in Office can be found in Contents of DPIA.

QUESTION 3

You have a Microsoft 365 E5 subscription that contains a Microsoft SharePoint Online site named Site1.

You need to implement a records management solution for the files stored on Site1. The solution must meet the following requirements:

The files must be retained for seven years.

Files older than seven years must be deleted automatically.

What should you use to manage the files?

- A. a label policy
- B. an adaptive scope
- C. a file plan
- D. a disposition review

Correct Answer: C

Create a file plan to manage records in SharePoint Server.

The file plan is the primary records management planning document in SharePoint Server. Although file plans can differ across organizations, they typically:

Describe the kinds of items the organization acknowledges to be records.

Describe what broader category of records the items belong to.

Indicate where records are stored.

Describe retention periods for records.

Delineate who is responsible for managing the various kinds of records.
