QUESTION 1

You have a Microsoft 365 E5 subscription.

You need to review the compliance of the subscription with the General Data Protection Regulation (GDPR) by using Compliance Manager. The solution must minimize administrative effort.

What should you create first?

- A. an assessment
- B. an alert policy to monitor for score changes
- C. a template
- D. review assessments

Correct Answer: A

Data Protection Impact Assessment Under GDPR, data controllers are required to prepare a Data Protection Impact Assessment (DPIA) for processing operations that are \\likely to result in a high risk to the rights and freedoms of natural persons.\\ There is nothing inherent in Microsoft products and services that need the creation of a DPIA. Rather, it depends on the details of your Microsoft configuration. A list of details that must be considered in Office can be found in Contents of DPIA.
