QUESTION 1

Which statement best describes the purpose of the Sitecore Container Registry (SCR)?

- A. The SCR provides base container images for Sitecore environments for both production and development purposes.
- B. The SCR provides Sitecore-approved images submitted by the Sitecore MVP community.
- C. The SCR only provides base container images for Sitecore environments for development purposes only.
- D. The SCR only provides base container images for add-on modules, such as SXA, JSS, and SPE.

Correct Answer: A

QUESTION 2

You are setting up a Sitecore instance without the use of SXA and want to accommodate three public-facing websites. Where would you map the correct Home item to its corresponding hostname?

- A. In the /system/settings section of the Master database
- B. In the Sitecore Core database's settings file
- C. In the Internet Information Services website definition settings
- D. In a config patch file located in the /App_Config/Include folder

Correct Answer: D

QUESTION 3

While developing using Sitecore MVC, you modify a file in your Visual Studio project outside of the webroot folder. What can you do to see the changes within the Sitecore installation?

- A. Publish the file using the Sitecore Rocks Publish file command.
- B. Copy the file to the webroot using Visual Studio's Publish command.
- C. Use the Sitecore Global Publish to publish everything.
- D. Publish the entire site when you are in the Content Editor.

Correct Answer: B

QUESTION 4

A team member incorrectly entered their password several times when attempting to log in to Sitecore and is now locked out of their account. What can you do to unlock this user?

- A. Go to the User Manager, select the user, and click Edit to update user settings.
- B. Go to the Security Editor, select the user, and update their access rights to Sitecore.
- C. Go to the User Manager, select the user, and click Change password to unlock the user's account by resetting their password.
- D. Go to the User Manager, select the user, and click Unlock in the navigation ribbon.

Correct Answer: D

QUESTION 5

If you want to limit the serialization of items under the Navigation item to the item itself and those one step below, what property should you add to the includes to indicate this limitation?

- A. Item path
- B. Scope
- C. Nothing, this is the default
- D. Name

Correct Answer: C
