QUESTION 1

You are using Sitecore MVC to develop an area of a company\'s website that will require the use of Sitecore\'s Personalization Engine to change the rendering that is displayed to a visitor. What type of component binding will allow the Designer to use personalization to change the component?

A. Static component binding, because you are able to give Authors the ability to change the presentation of the page.

B. Static component binding, because you are able to ensure that content rendered in the placeholder is always the same when the component is selected.

C. Dynamic component binding, because you are able to ensure that the content rendered in the placeholder is always the same.

D. Dynamic component binding, because you are providing a placeholder to enable flexibility to change the components that make up the presentation of a page.

Correct Answer: D

QUESTION 2

What is a reason to set the insert options on a specific item under the content node of the content tree?

A. To allow Content Authors to insert items into the content tree for all the templates they have access to

B. To allow Content Authors to insert items under the specific item in addition to what is included with the item\'s standard values

C. To allow Content Authors to insert new items under any item within the content tree

D. To allow Content Authors to insert items created from any system template into the content tree under the specific item

Correct Answer: B

QUESTION 3

Which four statements are true about developing with the SitecoreASP.NET Core Rendering SDK? (Choose four.)

A. It enables the Content Delivery instance to handle all of the development workload.

B. It allows you to createindependent applications that render Sitecore content.

C. It helps you build small, lightweight .NET Core applications for Sitecore.

D. It enables you to remove ASP.NET from your solution.

E. It allows you to extend Sitecore pipelines using .NET Core.

F. It depends on the Sitecore Layout Service.

G. It enables you to preview your code changes without having to restart the Sitecore environment.

Correct Answer: BCFG

QUESTION 4

When creating your containerized Sitecore environment with Docker, for the ease of launching the containers, which two files are recommended? (Choose two.)

A. clean.ps1

B. docker-compose.yml

C. compose.yml

D. .env

E. docker.exe

Correct Answer: BD

QUESTION 5

A company you develop for wants to temporarily change the design for their main page for a company anniversary celebration. Because this will be a specific version of the main page that is published for a specific period, which Sitecore feature enables you to accomplish this change while easily allowing you to revert to the original design?

A. Final layouts

B. Shared layouts

C. Restricted layouts

D. Versioned layouts

Correct Answer: D
