**QUESTION 1**

According to the paragraph, what is the purpose of engaging in a trial period when hiring a tutor?

When faced with a difficult academic task, many students turn to tutors for assistance. Tutors range widely in specialty and cost, including tutors who focus exclusively on reading, and others who work in broad categories such as general math. Tutors may be found in variety of ways, including checking with your local school and seeking out prospective tutors online. When searching for a tutor, however, recognize that different specialties may incur additional fees or charges. When selecting a tutor, consider establishing a trial period to ensure personality types mesh well and services deliver what they promise.

- A. to ensure that the student and tutor are well-paired, and to ensure that the tutor is providing adequate services
- B. to ensure that the student passes his/her classes
- C. to ensure that the tutor is not scamming the student
- D. to ensure that the tutor meets the student and establishes a rapport

Correct Answer: A

According to this 2010 United States Census chart, a variety of types of people earned incomes less than \$30,000 per year.

What percentage of people who earned below \$30,000 in 2010 had no college experience?

- A. 79%
- B. 22%
- C. 13%
- D. 56%

Correct Answer: D

QUESTION 3

If a patient follows the directions correctly, how often could the medicine be taken?

Read the set of directions below to answer the questions.

This formula is for people with deficiencies and anemic conditions. It aids in the body absorption of vital minerals such as iron, calcium, zinc, potassium, and sulfur. Take the following ingredients: Parsley root, Comfrey root, Yellow dock, Watercress, Nettles, Kelp Irish moss. Simmer slowly equal parts of these herbs with four ounces to a half-quart of water. Continue to simmer slowly until the volume of liquid is reduced by half.

Strain, reserve the liquid, and cover the herbs with water once more. Then simmer again for 10 minutes.

Strain and combine the two liquids.

Cook the liquid down until the volume is reduced by half. Add an equal amount of blackstrap molasses.

Take one tablespoon four to five times daily, not exceeding four tablespoons in a 24-hour period.

- A. once every six hours
- B. once every four hours
- C. once every three hours
- D. once every two hours

Correct Answer: A

The dosage indicates not to exceed four tablespoons in a 24-hour period, so the patient should take it no more than every six hours.

QUESTION 4

Students who interpret the honor strictly find it _____ that some bright student's complete take-home examinations for less proficient friends.

- A. remedial

- B. irreproachable
- C. unconscionable
- D. irrelevant
- E. magnanimous

Correct Answer: C

The sentence seeks to contrast the attitudes of two sets of students ?those who interpret the honor code strictly, and those who answer the take-home examinations on behalf of other, less intelligent students.

Obviously, those students who interpret the honor code strictly would hold that no student should attempt to answer the lake home examination for another student. They would, therefore, not consider the practice a brighter student answering the home examination of a less bright student as "remedial", or

"irreproachable", or "irrelevant", or "magnanimous".

They would certainly consider this practice as "unconscionable" (meaning against one's conscience). So, "unconscionable" is the answer.

QUESTION 5

Emily is searching for a bag for her granddaughter. Her granddaughter is bookish in nature, and is notoriously difficult to shop for.
