**QUESTION 1**

Management has decided it makes business sense for your company to move to a hybrid cloud environment but has the concern that once you have made the move, managing your many VMs across the various clouds will require multiple logins with multiple interfaces. Which product would you describe to management to reassure them that you have a single pane of glass style operational interface for all of the VMs in this hybrid cloud environment?

- A. vCenter Server
- B. vCloud Connector
- C. vCloud Director
- D. vFabric Suite

Correct Answer: B

---

**QUESTION 2**

You are an automation engineer for your companies private vCloud environment. While you work on many projects, you are primarily responsible for automating workflows for the provisioning, altering configurations, and decommissioning virtual workloads. Which product is integrated with vCloud Automation Center's workflow engine that will allow you to accomplish these tasks?

- A. Powershell
- B. vCenter Orchestrator
- C. vCloud Connector
- D. VMware NSX

Correct Answer: B

---

**QUESTION 3**

You have been contracted to architect a vCloud solution for one of your clients. You decide to build two clouds: one for development and one for production.

Which product will allow you to move workloads from the development cloud to the production cloud?

- A. vCloud Director
- B. VMware NSX
- C. vCloud Connector
- D. vFabric Suite

Correct Answer: C

---

#### QUESTION 4

Your manager wants to know why traditional usage metering tools are less effective in your private cloud. Which two statements are accurate responses? (Choose two.)

- A. You want to improve the efficiency of your virtual environment.
- B. Traditional monitoring tools won't work in a cloud environment.
- C. Resource usage is shared in a virtual environment.
- D. Traditional metering tools don't work in VMs.

Correct Answer: CD

---

#### QUESTION 5

A colleague hears you have just completed vCloud training. She asks you to explain vCenter Operations Manager and its relationship to the other VMware Cloud products. What do you tell her?

- A. vCenter Operations Manager is the main web-based management interface for vCloud.
- B. vCenter Operations Manager is an optional software component which helps with performance analysis in the cloud.
- C. vCenter Operations Manager is a cloud security and firewall service which helps prevent virus and hacker attacks.
- D. vCenter Operations Manager helps automate repetitive tasks in your private cloud.

Correct Answer: B
