QUESTION 1

Refer to the exhibit.

An administrator has successfully deployed vCenter Operations for Horizon. The administrator logs into the custom dashboard, finds a list of active users on the View Users tab, and clicks on one of them.

The Health tree widget does not update, as shown in the exhibit.

What has been changed in vCenter Operations for Horizon configuration to result in the dashboard issu e?

A. Interaction between the Active User Sessions widget and the Health tree widget was removed.

B. Reporting in the Health tree widget was changed from on to off.

C. Interaction between the Metric Sparkline widget and the Health tree widget was removed.

D. Reporting in the Active User Sessions widget was changed from on to off.

Correct Answer: A

QUESTION 2

An administrator is planning to implement Persona Management to provide user persistence for the floating linked-clone desktop users. The current master image is optimized to comply with all recommendations in the Optimization Guide for Windows 7 and Windows 8 Virtual Desktops in Horizon with View.

Which two services must be enabled to support Persona Management? (Choose two.)

A. Microsoft Software Shadow Copy Provider

B. Volume Shadow Copy Service

C. Background Intelligent Transfer Service

D. Group Policy Client

Correct Answer: AB

QUESTION 3

What must an administrator remove to prepare for a View security server upgrade?

A. The Firewall rules

B. The IPSec rules

C. The Connection Server from the View environment

D. The security server from the View environment

Correct Answer: B

QUESTION 4

An administrator has installed an instance of View Composer on a standalone server and needs to add a new vCenter Server to the View environment.

What should the administrator do to enable the use of View Composer with the new vCenter Server?

A. Install a new instance of View Composer to use with the new vCenter Server.

B. Configure the new vCenter Server to use the current standalone View Composer server.

C. Create a new organizational unit in Active Directory for linked clone desktops created on the new vCenter Server.

D. Add a user account to the new vCenter Server with permission to use the current standalone View Composer server.

Correct Answer: A

QUESTION 5

An administrator has deployed a View security server, with PCoIP as the only allowed protocol. External users can successfully authenticate, and are presented with an available desktop pool. However, the users are unable to connect to the virtual desktop.

Which View configuration must be performed?

A. Enable HTTP(S) Secure Tunnel

B. Enable PCoIP Secure Gateway

C. Enable Blast Secure Gateway

D. Enable Provisioning
