QUESTION 5

A cluster administrator wants to deploy a complex cluster configuration that will include over six nodes, I/O fencing, and multiple private cluster interconnections. The administrator has a week to prepare before the actual cluster nodes become available for software installation.

Which method will help the administrator to implement rapid cluster deployment?

- A. prepare a custom main.cf file using the sample template files
- B. generate a custom installation script using the Veritas Services and Operations Readiness Tools (SORT) website
- C. prepare a custom response file in Veritas InfoScale Operations Manager and push out to the new cluster
- D. prepare a custom response file to build the new cluster configuration

Correct Answer: D
