QUESTION 1

Refer to the exhibit.

When is this policy setting required?

- A. when Enterprise Vault shortcuts are required in OWA 2007 or 2010
- B. when EV Search is required in OWA 2007 or 2010
- C. when the Restore function is required in OWA 2007 or 2010
- D. when the Archive function is required in OWA 2007 or 2010

Correct Answer: B

QUESTION 2

Which two storage types are supported for use as Vault Store partitions? (Select two.)

- A. Network Attached Storage using NFS protocol
- B. Network Attached Storage using CIFS protocol
- C. directly attached disks formatted with the EXT3 filesystem
- D. directly attached disks formatted with the NTFS filesystem
- E. directly attached disks formatted with the FAT32 filesystem

Correct Answer: BC

QUESTION 3

The Enterprise Vault server is running out of disk space in a particular index location and the administrator wants to move some indexes to a new location.

How should the administrator move the indexes?

- A. manually move the Index files to the new location > run the "Synchronize" task

- B. use the "Index Volumes Browser" and choose the index volume > click the "Move" button
- C. run the "Change Location" task > manually copy the Index files to the new location
- D. manually move the Index files to the new location > change the path in the IndexServiceEntry table in the EV directory database

Correct Answer: C

QUESTION 4

An administrator has configured Exchange journal archiving and Exchange mailbox archiving in the same Vault Store Group. The administrator wants to take advantage of optimized single instance storage in Veritas Enterprise Vault 12.x for Exchange.

Where must the administrator configure the sharing level to achieve this?

- A. on the Vault Store properties
- B. on the Vault Store partition properties
- C. on the Vault Store group properties
- D. on the Enterprise Vault server properties

Correct Answer: C

QUESTION 5
