

**Exam** : **000-573**

**Title** : IBM Tivoli Netcool/Impact  
V6.1 Implementation

**Version** : Demo

www.Pass4itSure.com

1. An IBM Tivoli Netcool/Impact V6.1 system is configured to perform event enrichment by retrieving ObjectServer events which have an empty Location field. Which Service Log can be used to verify that Netcool/Impact is selecting events from the ObjectServer based upon that condition?

- A. the PolicyLogger service
- B. the PolicyActivator service
- C. the OMNIBusEventReader service
- D. the OMNIBusEventListener service

**Answer: C**

2. Which command line function should be executed prior to applying a product fix or upgrading the IBM Tivoli Netcool/Impact Server as best practice.?

- A. nci\_crypt
- B. nci\_policy
- C. nci\_trigger
- D. nci\_export

**Answer: D**

3. How is the name of the IBM Tivoli Netcool/Impact Server Instance on the console identified?

- A. check the IBM Installer utility ltsll.sh to show the Impact Server Instance Names that have been set up
- B. check the TIPProfile/logs/server1 directory - the SystemOutlog holds the Impact Service Instance name
- C. use the nci\_server command line utility to show the Impact Server Instance Names that have been set up
- D. check the impact/etc directory - all Impact Server Instance-related files use the Instance Name in the beginning of every file name

**Answer: D**

4. In which folder are the IBM Tivoli Netcool/Impact V6.1 service logs stored?

- A. \$NCHOME/logs
- B. \$IMPACT\_HOME/log
- C. \$IMPACT\_HOME/logs
- D. \$IMPACT\_HOME/services/logs

**Answer: C**

5. A new Impact Server will be installed using the console mode of the installer application. Which statement is true?

- A. All default ports must be available.
- B. The installer will not check if the required ports are available.
- C. A starting point of ports can be selected if the default ports are not available.
- D. The installer will adapt the required ports if some are tested as in use during the installation.

**Answer: C**

6. In order for IBM Tivoli Netcool/Impact V6.1 to start using the ObjectServer for authentication, the server must be configured so that it can map the roles that the application exposes to groups and/or users

managed in IBM Tivoli Netcool/OMNIBus. Which file must be edited for this purpose?

- A. omnibus.conf
- B. omnibususers
- C. guiserver.setting
- D. objectserver.conf

**Answer: C**

7. On a server with only command line access, the server in an IBM Tivoli Netcool/Impact cluster is identified as acting as a primary server by using which command line utility?

- A. nci\_server
- B. nci\_trigger
- C. nci\_get\_primary
- D. nci\_findendpoint

**Answer: C**

8. Which component of IBM WebSphere is installed with IBM Tivoli Netcool/Impact V6.1?

- A. WebSphere MQ
- B. WebSphere Portal Server
- C. WebSphere Process Server
- D. Embedded WebSphere Application Server

**Answer: D**

9. What is the purpose of a project in IBM Tivoli Netcool/Impact V6.1?

- A. It allows for creating subsets of the elements stored in the global repository.
- B. It allows for creating subsets of the elements stored in the Impact repository.
- C. It allows for creating subsets of the elements stored across cluster members.
- D. It allows for creating supersets of the elements stored in the global repository.

**Answer: A**

10. Which three IBM Tivoli Netcool/Impact roles in Tivoli Integrated Portal can be used to control users access to navigation pages in the GUI and to permit users to unlock their own files?

- A. impactSuperUser, impactFullAccessUser, and impactOpViewUser
- B. impactAdminUser, impactReadWriteUser, and impactOpViewUser
- C. impactAdminUser, impactFullAccessUser, and impactOpViewUser
- D. impactAdminUser, impactFullAccessUser, and impactReadOnlyUser

**Answer: C**

11. Which step is required to design an IBM Tivoli Netcool/Impact V6.1 solution from stakeholder requirements?

- A. Determine if the correct Java version is installed.
- B. Create an architecture and a raw functional design of policies.
- C. Determine if enough disk space is provided on the installation servers.
- D. Interview the operational staff to determine their most efficient way to resolve a problem

**Answer: B**

12. What are two ways Data Source Adapters are used in IBM Tivoli Netcool/Impact V6.1? (Choose two.)

- A. to monitor Netcool/Impact services
- B. to communicate with external data sources
- C. to extend the capabilities of Netcool/Impact
- D. to apply product fixes to the Netcool/Impact Server
- E. to start the policy logging service in Netcool/Impact

**Answer:** B,C

13. Given only command line access, where is it verified that a newly started IBM Tivoli Netcool/Impact Server instance is registering itself as a slave or primary in a cluster?

- A. in the server.log file
- B. in the netcool.log file
- C. in the systemOut.log file
- D. using the nci\_server utility

**Answer:** B

14. Which tool will start a policy from the command line?

- A. nci\_crypt
- B. nci\_policy
- C. nci\_trigger
- D. nci\_import

**Answer:** C

15. What is true about the LDAP DSA?

- A. It does not support data saved in UTF-8 format.
- B. It does not retrieve information from LDAPV2/V3.
- C. It allows IBM Tivoli Netcool/Impact to add, modify, or delete information managed by the LDAP server.
- D. It does not allow IBM Tivoli Netcool/Impact to add, modify, or delete information managed by the LDAP server.

**Answer:** D

16. What must occur before a data type can be defined?

- A. Data Type service must be started
- B. Policy Activator service is activated
- C. Data Source definition is configured
- D. ObjectServer Event Reader is activated

**Answer:** C

17. What must be done to receive an IBM Tivoli Netcool/OMNIBus event when a policy run raises any unknown exception?

- A. use the action function exceptionnameO and add policy code to insert the event between the brackets
- B. use handle exceptionnameO in the policy and add policy code to insert the event between the brackets
- C. create an ExceptionHandlerPolicy that inserts the event and define this in the Policytoggler

configuration

D. configure the Self-Monitoring service to log exceptions into the ObjectServer defined in the service configuration

**Answer: C**

18. What is the minimum memory requirement for installing a Tivoli Integrated Portal profile and an IBM Tivoli Netcool/Impact profile running on the same physical machine?

- A. 2 GB
- B. 4 GB
- C. 6 GB
- D. 8 GB

**Answer: C**

19. Which utility edits the installed GUI server deployment and maps the roles to the specified users?

- A. roles.[bat|sh]
- B. user-roles.[bat|sh]
- C. update-impact-roles.[bat|sh]
- D. impact-security-roles.[bat|sh]

**Answer: C**

20. Which functional step should be completed when designing an IBM Tivoli Netcool/Impact V6.1 solution?

- A. write an enrichment policy
- B. develop Netcool/Impact startup scripts
- C. test high availability and fail-over scenarios
- D. determine methods of achieving customer requirements

**Answer: D**
