**QUESTION 1**

Consider the following HTML5 code:

```
<!DOCTYPE html>
<html lang="en">
<head>
  <title>My Favorite Movie Quotes</title>
  <link rel="stylesheet" href="css/styles.css"/>
</head>
<body>
<p> This Web site is devoted to my favorite movie quotes. These ic
been used time and again but will never lose their appeal. </p>
<p> CAPTAIN (Strother Martin) in Cool Hand Luke (1967)
<blockquote> "What we've got here...is a failure to communicate."
</p>
</body>
</html>
```

The code does not validate as HTML5. Why?

- A. The tag is missing.
- B. The tag and its attributes are missing.
- C. The

tag should be used outside the
tags.

D. The !DOCTYPE declaration is missing a reference to the Document Type Definition (DTD).

Correct Answer: C

QUESTION 2

During the initial meeting to plan a new Web site, whose input must be obtained?

- A. Shareholders
- B. Stakeholders
- C. Web developers
- D. Graphic designers

Correct Answer: B

**QUESTION 3**

Which type of attack is a form of social engineering in which an attacker attempts to steal personal or confidential information by sending e-mail that lures unsuspecting victims to log in to an authentic-looking but imposter Web site?

- A. Replay
- B. Phishing
- C. Spoofing
- D. Pharming

Correct Answer: B

QUESTION 4

Katie developed her corporation's intra net site using proprietary HTML language extensions based on the company's current browser. The company has recently updated its systems to include the use of a new browser. Now the intra net site that Katie developed no longer renders its content consistently. What should Katie do to ensure that this site's content renders consistently regardless of the browser used?

- A. Revise the site to include workarounds and hacks for the new browser.
- B. Revise the site's markup language in only those areas that are not rendering properly.
- C. Update the site using a single language standard consistently, such as HTML5 or XHTML.
- D. Update the site using the proprietary language extensions required by the new browser's rendering engine.

Correct Answer: C

QUESTION 5

Carlos is the Information Technology (IT) administrator for a small company. Over the past year, employees have been using their personal mobile devices and smart phones for business use. This has reduced costs of purchasing new devices for employees. Carlos is now considering whether he should stop supplying employees with company phones and instead require all employees to use their personal smart phones for work. How can Carlos address the most significant security vulnerability?

- A. Develop a robust app to push security updates out to the various mobile OS devices
- B. Create an employee policy that requires employees to keep phones updated to the latest technology
- C. Create a policy that specifies acceptable use, ensuring security measures are in place for mobile devices
- D. Mandate that employees switch to the company's mobile service provider to ensure security policies are enforced

Correct Answer: C

**QUESTION 6**

Emelia and Lola have created a new software application that allows messaging site subscribers to analyze the message statistics in order to more easily assess and interact with followers. They have decided to license this software according to the GNU GPL Version 3. What does this license allow them to do with their software?

- A. They can only sell this software through a not-for-profit company.
- B. They can sell this software, but only if they make the software code available on a public server.
- C. The software enters the public domain for free use and can be altered by other programmers, who must then make their changes freely available as well.
- D. The software enters the public domain for free use, but any changes made in the future can be kept secret, allowing them to profitably sell the modified software.

Correct Answer: C

QUESTION 7

Which type of application allows you to edit and validate your source code and preview your Web pages in multiple browsers?

- A. GUI HTML editor
- B. HTML text editor
- C. Word processor
- D. Compiler

Correct Answer: A

QUESTION 8

Which type of attack involves the installation of malicious code on personal computers or servers that redirects Internet traffic from a legitimate Web site to an identical-looking but malicious imposter Web site?

- A. Pharming
- B. Spoofing
- C. Phishing
- D. Replay

Correct Answer: A

QUESTION 9

What is the biggest security concern with wireless networks?

- A. Firewall software is not available for access points.
- B. Wireless encryption algorithms must be implemented.
- C. Wireless networks do not support intrusion detection.
- D. Wireless networks do not support encryption via an access point.

Correct Answer: B

QUESTION 10

To insert a graphic in a Web page and successfully validate the page as HTML5, the element must include:

- A. The id attribute
- B. The alt attribute
- C. The target attribute
- D. The name attribute

Correct Answer: B

QUESTION 11

Sam is a professor at a small college. Due to a scheduling conflict, he was unable to obtain access to the computer lab to give the final exam. As an alternative, he asked students to bring their own devices (BYOD) and connect to the college's Wi-Fi for network access. What security risk is associated with this implementation?

- A. Inability for students to share files
- B. Inability for students to back up user files
- C. Student devices sending unsecured data
- D. Student devices being more susceptible to malware

Correct Answer: C

QUESTION 12

Sally is a network technician at Acme Corporation. She has been directed to configure the network adapter for a company laptop so that it can be used to connect to the company network and the Internet. What is one of the required TCP/IP settings that she will need to configure?

- A. MAC address
- B. Default gateway

- C. Workstation name
- D. Loopback address

Correct Answer: B

QUESTION 13

You received a text and a threatening voicemail from an angry customer who wants to immediately discuss the shortcomings of a recently released product. You are about to walk into a mandatory meeting with your top-level leadership team. Which of the following is your best course of action?

- A. Continue to send text messages to the customer hoping to smooth things over until you can call him on the phone after your meeting.
- B. Request that the customer send his complaints by e-mail, knowing that any inappropriate communication will be well documented.
- C. Do not respond to the customer.
- D. Skip the meeting and call the customer.

Correct Answer: B

QUESTION 14

You are modifying an existing Web page that needs to validate as HTML5 code. To create a rectangular hot-spot in an image map that links to www.xyz.com, which code would you nest inside the container tags?

- A.
- B.
- C.
- D.

Correct Answer: C

QUESTION 15

A family member has just sent you an e-mail message that contains highly personal details about a family matter. The message was sent to your company e-mail address. The family member has requested that you respond with your ideas about how to resolve the situation. Which of the following is a reason for you to call your family member and discuss the matter over the phone instead?

- A. Because your employer has the right to read your e-mail
- B. Because e-mail is completely private but not personal enough
- C. Because it is illegal to use company e-mail for personal use

D. Because an e-mail message about a personal family matter will violate netiquette guidelines

Correct Answer: A
