## QUESTION 1

As part of maintaining (importing new employees that were added last week) project enterprise labor resources in your organization, you submit the Maintain Project Enterprise Labor Resources process to create and update resources based on changes in HCM. You define maintenance conditions on the Manage Project Enterprise Labor Resource page to process both employees and contingent workers. (Choose the best answer.)

- A. Pool Membership
- B. attributes that the project enterprise resources are assigned after creation
- C. Jobs
- D. Person Type

Correct Answer: D

Reference [https://docs.oracle.com/cloud/farel8/projectcs\\_gs/OAPEX/F1082603AN23E61.htm](https://docs.oracle.com/cloud/farel8/projectcs_gs/OAPEX/F1082603AN23E61.htm) Manage Project Enterprise Labor Resource Maintenance Conditions Project Enterprise Labor Resources: How They Are Automatically Created and Maintained Run the Maintain Project Enterprise Labor Resources process to create resources, remove resource availability for staffing, and maintain the resource search index. Settings That Affect the Maintain Project Enterprise Labor Resources Process Create and maintain project enterprise labor resources by defining a set of conditions that specify the employees and contingent workers in Oracle Fusion Human Capital Management (HCM) to create as resources in Oracle Fusion Project Portfolio Management. Define the resource attribute values, such as the resource calendar and primary project role, to assign to the new resources. The following table lists the criteria that you define for selecting HCM persons to create as project enterprise labor resources.

### Selection Criteria Description

**Person type** Select the HCM person type for the process to use as criteria when selecting HCM persons to create as resources. Available person types are employees, contingent workers, or both employees and contingent workers. **Option to select** Select this option for the process to create resources for HCM persons with specific jobs. **people based on Caution** If you do not select job criteria for this condition, the process will create resources for all job eligible people based only on the person type.

**Jobs** If you selected the option to select people based on job, then select the jobs for the process to use as HCM person selection criteria.

The following table lists the attributes for which you specify values to assign to resources that are created for the condition. Resource Attribute Description

**Option to manage** Select this option for resource managers to manage the availability and project staffing of resource availability resources who are created based on the condition. **Resources who are managed in Oracle and staffing Fusion Project Resource Management** are eligible to fulfill project resource requests. **Calendar** Select the resource calendar for resources that are created based on the condition. The resource calendar defines the work schedule for project enterprise labor resources, and includes working days and hours and any exceptions, such as holidays. **Primary project role** Select the primary project role for resources that are created based on the condition. Project roles are maintained in Oracle Fusion Project Management. **Cost rate and Enter the cost rate and currency** for resources that are created based on the condition. **currency Bill rate and currency** Enter the bill rate and currency for resources that are created based on the condition.

## QUESTION 2

While creating a new project template, you notice that a default Asset Cost Allocation method is being automatically associated. Identify the source setup from which the default value is being inherited. (Choose the best answer.)

- A. project classification
- B. project type
- C. project unit
- D. project organization

Correct Answer: B

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapjf/define-project.html#OAPJF220111>  
Asset Cost Allocation Methods The asset cost allocation method determines how indirect or common costs incurred on a project are allocated to multiple assets. You can specify an asset cost allocation method to enable Oracle Fusion Project Costing to automatically allocate unassigned asset lines and common costs across multiple assets. Unassigned asset lines typically occur when more than one asset is assigned to an asset grouping level. Projects and project templates inherit a default asset cost allocation method from the associated project type. You can override the default at the project level. If you use capital events to allocate costs, then you can also override the asset cost allocation method at the event level Asset Cost Allocation Methods The following table describes the available asset cost allocation methods.

Method	Basis of Cost Allocation	Actual Units	Number of units defined for each asset	Current Cost	Construction-in-process (CIP) cost of each asset	Estimated	Estimated cost of each asset	Cost Standard	Unit Combination of the standard unit cost and the number of units	Cost defined for each asset	Spread Evenly	Equal allocation of cost to each asset

### QUESTION 3

Which four notification templates are predefined?

- A. Password Reset Template
- B. New Account Template
- C. Forgot Password Template
- D. Forgot Username Template
- E. New Account Manager Template

Correct Answer: ABDE

<https://docs.oracle.com/en/cloud/saas/sales/18c/oscus/setting-up-applications-security.html#OSCUS2287154>

Predefined Notification Templates

Notification Template Description

Password Expiry Warning Warns the user that a password is expiring soon and provides instructions for resetting Template the password.

Password Expiration Notifies the user that a password has expired and provides instructions for resetting Template the password.

Forgot User Name Sends the user name to a user who requested the reminder.

Template

Password Generated Notifies the user that a password has been generated automatically and provides Template instructions for resetting the password.

Password Reset Template Sends a reset-password link to a user who requested a new password. Users can request new passwords by selecting the ForgotPassword link on the application Sign In page, or by selecting the Password option

on the Preferences page (Settings and Actions > Set Preferences).

Password Reset Notifies the user when a password has been reset.

Confirmation Template

New Account Template Notifies a user when a user account is created and provides a reset-password link. New Account Manager Notifies the user's manager when a user account is created.

Template

When you create a user category, it's associated automatically with the predefined notification templates, which are all enabled.

You can't edit the predefined templates. However, you can create templates and disable the predefined versions. Each predefined event can be associated with only one enabled notification template at a time.

Topic - Project Date Cascade Options

Use the Cascade option choice list to determine whether your changes to project dates cascade to tasks.

Use the Basic Information region on the Edit Project Template page to select one of the following options:

Do not cascade project date changes to tasks: Both start and finish dates are editable. However, you must ensure the following:

The project start date is not later than the earliest task date. The project finish date is not earlier than the latest task date. Cascade project start date change to affected tasks: You can edit only the project start date. Cascade project finish date

change to affected tasks: You can edit only the project finish date. Do not cascade project date changes to tasks is the default value. You must select the cascade option each time you change the project dates, as your selection isn't saved

for future date changes. If you select to roll up planned dates for tasks or are using an external application for scheduling, then you can't modify the project start or finish dates.

The following table describes Prevalidation rules for tasks and resource assignments.

Level Rule

Lowest-level One labor and multiple expense resources are allowed for a lowest-level task.

tasks Remove other resources.

Summary Only one labor resource with zero allocation is allowed for a summary task. Remove tasks all other resources.

Milestone No subtasks are allowed under milestone tasks. Milestones must be lowest-level tasks tasks.

Milestone Milestone tasks must have zero duration.

tasks

Milestone Only one labor resource, with zero effort, is allowed for a milestone task. Remove all tasks other resources.

When exporting milestone tasks, ensure that the tasks:

Are lowest-levels task with zero duration, that is, the same start and finish dates.

Have only one labor resource assignment with zero effort.

Have percent work complete values of 0 or 100 percent. Any other values are set to zero before export.
