QUESTION 1

Which modules support BMQL statements?

A. Formula Administration and Commerce

B. only Formula Administration

C. Commerce and Configuration

D. Formula Administration and Configuration

Correct Answer: C

QUESTION 2

Your customer wants to have the Commerce pricing function invoke a Util library function applyDiscounts(), which applies discounts on the distributor price, the reseller price, and the endcustomer price, and then returns the discounted

values.

Identify three approaches that can be used to pass these values back to the Commerce pricing function.

A. Return the values by using multiple return statements.

B. Add these values to a dictionary along with appropriate keys and return this dictionary.

C. Add all values to an array and return the array.

D. Construct a return result string in the following format and return this string: documentNumber ~ variableName ~ value [| documentNumber ~ variableName ~ value]*

Correct Answer: BCD

QUESTION 3

Identify a situation in which the Add to Quote button will be displayed in the configuration page, after the configuration flow is executed for the first time.

A. when there are no active constraint rules and the configuration flow has this page defined as End Node

B. when the configuration flow has this page defined as Transition Node

C. when there are active constraint rules and the configuration flow has this page defined as End Node

D. when there are no missing parts in Recommended Items

Correct Answer: C

QUESTION 4

A. Recommended Item rule

B. Hiding rule

C. Constraint rule

D. Pricing rule

E. Recommendation rule

Correct Answer: C

QUESTION 5

Your client requires configurators with 400 configurable attributes that don\\'t need to be selected in a specific order and the client is concerned about page load time. How would you utilize Configuration Flows to provide an optimal user experience?

A. Use CSS to hide irrelevant attributes during selection.

B. Use tabs to display attributes.

C. Display attributes using a multi-node config flow.

D. Display attributes on one tab in groups.

Correct Answer: C

QUESTION 6

What happens if an Array control attribute is not added to the layout of a configurator?

A. The Array will always show 200 rows.

B. The system will automatically assign an Array control attribute.

C. The entire Array set will be hidden.

D. The configuration rules will fail to fire.

Correct Answer: B

QUESTION 7

An admin tries to change the document views on an attribute from a participant profile under transition rules. But the attribute is not listed in the list of attributes that are available for editing. What are the two causes for this behavior?

A. The attribute is a system attribute.

B. The attribute is hidden on the attribute details page.

C. The attribute is not added to the layout.

D. The attribute is being referenced in an active Hiding rule.

Correct Answer: CD

QUESTION 8

Which operation is allowed in BMQL query?

A. SELECT, INSERT and DELETE

B. SELECT, INSERT and UPDATE

C. SELECT

D. SELECT and UPDATE

Correct Answer: C

QUESTION 9

Which is a recommended option for using Oracle CPQ Cloud SPQ Cloud BigMachines WebServices?

A. Hard code URLs into BML when making GET and POST calls.

B. Store XML templates in file manager and use them from within BML.

C. Make WebServices calls directly from the rules.

D. Save and reuse session IDs regularly.

Correct Answer: B

QUESTION 10

You have 50 000 quotes in your BigMachines site. Based on a new requirement that you received from your client, you have added a new line item attribute to the line item grid, which shows a customer-specific discount for the line item part,

fetched from a data table.

How would you update the existing quotes to show this discount value?

A. Create a new Commerce library function and pass a quote numbers as input.

B. Update the quotes manually.

C. Run a mass update all quotes.

D. The existing line items will get updated automatically.

Correct Answer: D

QUESTION 11

You want to perform a migration from a development site to a QA site. What is the Oracle recommended way to accomplish this?

A. Download the components that are to be migrated from the development site and upload them in the QA site.

B. Use a DB Link, log in to the development site through the migration center section, select the components to migrate that are to be migrated, and start the migration

C. Open Migration Center in the development site, log in to the QA site through the migration center section, select the components that are to be migrated, and start the migration

D. Open Migration Center in the QA site, log in to the development site through the migration center section, select the components that are to be migrated, and start the migration

Correct Answer: C
