**QUESTION 1**

A new customer requests an upgrade to its current TelePresence Server. Before issuing a quote, the presales engineer would like to know the software version and option keys that are currently installed on this server.

Which menu option path could be used to find information?

- A. Management Tab > Configuration > Windows Server
- B. Management Tab > Configuration > Site Settings
- C. Management Tab > Diagnostics > Server Overview
- D. Management Tab > Diagnostics > Server Logs.

Correct Answer: C

QUESTION 2

Which path should you follow to initiate a Cisco Telepresence System 1310-65 camera calibration procedure?

- A. Troubleshooting > Hardware Setup > Setup > Show Focus Target
- B. Troubleshooting > Hardware Setup > Cameras > Setup > Calibrate
- C. Hardware Setup > Start > Cameras > Setup > Show Focus Target
- D. Troubleshooting > Hardware Setup > Cameras > Show Camera Target

Correct Answer: D

QUESTION 3

ECDS is a solution that provides which of the following benefits?

- A. Video on demand capabilities
- B. Audio conference resources
- C. Content distribution management
- D. WAN optimization

Correct Answer: C

QUESTION 4

While trying to register to Cisco UCM, a Cisco IP phone reports TFTP authorization failure. Which cause of this issue is true?

- A. The phone has a cabling issue.
- B. A firewall in the network is blocking access.
- C. The TFTP address for the phone is not in the CTL file.
- D. DHCP option 150 has the incorrect TFTP IP address configured.

Correct Answer: D

QUESTION 5

The microphone on a Cisco TelePresence System 3000 is switching incorrectly to a camera that does not have an active speaker. What is the first step that an engineer should take to troubleshoot this issue?

- A. Check whether the microphone is properly plugged in.
- B. Run the microphone calibration procedure.
- C. Plug all microphones into the primary codec.
- D. Check whether the cable from the microphone is plugged into the correct receptor on the codec.

Correct Answer: B

Go to the following sections to test microphones:

- [Testing Microphones on the CTS 3000, page 1-17](#)
- [Testing Microphones on the CTS 3200, page 1-18](#)
- [Troubleshooting Microphones, page 1-19](#)
- [Related Information, page 1-20](#)

Testing Microphones on the CTS 3000

Note The effect of this calibration is applied only on CTS 3000 systems. Do not use this tool on CTS 3200 systems.

To test microphones on the CTS 3000:

- Step 1** Log in to the Cisco TelePresence System Administration interface.
- Step 2** Choose **Troubleshooting > Hardware Setup**.
- Step 3** Click the **Microphones** radio button.
- Step 4** Click **Start** in the Testing box to begin the test. The Microphone Calibration button is activated.
- Step 5** Lightly tap each microphone and watch the audio meter on the corresponding display screen to see that sound registers.
- Step 6** Click the **Microphone Calibration** button. A dialog box appears:

"Microphone Calibration will last approximately two minutes. Please ensure the room remains quiet during the test. Proceed?"

Note The room must be completely quiet to calibrate microphones. You may want to leave the room and close the door to carry out the calibration process to ensure complete silence in the room.

- Step 7** Click **Ok** to proceed with the calibration.

QUESTION 6

A company wants to enable a mobile user to connect to the corporate network to access calls, messages, video conferencing, and web collaboration. Which product provides these features for the user?

- Cisco WebEx Connect
- Cisco Unified Presence
- Cisco TelePresence SX20
- Cisco Jabber

Correct Answer: D

Collaborate Anywhere on Any Device with Cisco Jabber Give your teams the freedom to be productive from anywhere, on any device, with Cisco Jabber. Cisco Jabber lets you access presence, instant messaging (IM), voice, video, voice

messaging, desktop sharing, and conferencing. Now you can find the right people, see if and how they are available, and collaborate using your preferred method.

QUESTION 7

Which DHCP option needs to be configured by a network engineer in order for IP phones to reach the TFTP server?

- A. 60
- B. 50
- C. 150
- D. 160

Correct Answer: C

QUESTION 8

An engineer is deploying a Cisco TelePresence Touch 10 controller for a Cisco TelePresence SX20. Which step is required as part of this process?

- A. Connect the cable from the Touch 8 controller to the Cisco TelePresence SX20.
- B. Hold the mute button down for 20 seconds while you power on the Touch 8 controller.
- C. Reboot the Cisco TelePresence SX20.
- D. Connect the Touch 10 controller to the power adapter and connect the adapter to the network.

Correct Answer: D

QUESTION 9

Which two additional items can be configured for an endpoint to register with the Cisco TelePresence Video Communication Server for H.323 to function correctly? (Choose two.)

- A. unique system ID
- B. unique H.323 ID
- C. unique DNS entry ID
- D. unique E.164 alias
- E. unique real-time transport protocol port numbers
- F. unique NTP server IPv4 address

Correct Answer: BD

QUESTION 10

A network engineer wants to quickly view any issues that may exist for a newly deployed Cisco TelePresence SX20 codec. To which location in the codec web GUI should the engineer navigate to find this information?

- A. Diagnostics > Alerts
- B. Diagnostics > Troubleshooting
- C. Configuration > System Status
- D. Configuration > Security

Correct Answer: B

New troubleshooting features in TC6 A Diagnostics section on the web interface was introduced in the software version TC6.0. If there is a problem with your system you will see a notification in the Home screen when you first login to the web interface. From here you can click on Diagnostics -> Troubleshooting to see the details of the problem.

QUESTION 11

A Cisco TelePresence EX90 endpoint is not registering successfully, and the endpoint IP address is not known. What is the proper method to obtain the current IP address of the device?

- A. Reboot the device, and watch the screen for the IP address at system boot.
- B. Use Telnet to connect to the MAC address of the device, and type "STATIC A ?".
- C. Display the IP on the Cisco TelePresence EX90 screen by using the Cisco TelePresence Remote Control.
- D. Connect a computer to the NIC on the Cisco TelePresence EX90, and enable DHCP.
- E. Use the Cisco TelePresence Touch Control system menu.

Correct Answer: E

QUESTION 12

What is the main difference between Cisco Jabber and Cisco Jabber Video for TelePresence?

- A. Cisco Jabber registers to the Cisco Unified Communications Manager, whereas Cisco Jabber Video for TelePresence registers to the VCS.
- B. Cisco Jabber Video for TelePresence registers to Cisco Unified Communications Manager, whereas Cisco Jabber registers to the VCS.

C. Cisco Jabber has no video calling capabilities, whereas Cisco Jabber Video for TelePresence has video capabilities.

D. Cisco Jabber has no presence capabilities, whereas Cisco Jabber Video for TelePresence has presence capabilities.

E. There is no difference between Cisco Jabber and Cisco Jabber Video for TelePresence. They should not coexist in the same network.

Correct Answer: A
