

# 100% Money Back Guarantee

**Vendor:** Avaya

**Exam Code:** 2D00056A

**Exam Name:** APSS Avaya Networking Online Test

**Version:** Demo

### QUESTION 1

What makes Avaya's Fabric Connect fundamentally different to traditional IP networks?

- A. It uses MPLS in new and more efficient ways
- B. It uses OSPF to do the routing, based on the MAC address
- C. It uses a new Avaya proprietary protocol to get away from IP with all its limitations
- D. It enables a dynamic, agile and resilient network where Services need only be configured at the edge

**Correct Answer: D**

### QUESTION 2

How are Avaya's Core Ethernet Switches differentiated from other Switches in the industry? (Select the two correct options)

- A. They consistently implement our differentiating capabilities regardless of the 'size' of the network
- B. They use a unique Clustering technology
- C. They are smaller and lighter
- D. They support the Spanning Tree Protocol

**Correct Answer: BD**

### QUESTION 3

We are at the beginning of an emerging market defined by which two of the following key inflection points? (Select two)

- A. Consumerization of IT
- B. Client-server computing
- C. ATM to the desktop
- D. Cloud computing and networking

**Correct Answer:** AD

#### QUESTION 4

Select the three best reasons for giving administrators their own login and only the access privileges they need for their job. (Select three)

- A. Increases the amount of software that needs to be installed
- B. Increases network security
- C. Helps to reduce downtime due to configuration errors
- D. Allows provisioning changes to be tracked by individual user

**Correct Answer:** BCD

#### QUESTION 5

Your colleague is finalizing an Avaya Aura project with a customer. He found out that some of the existing non-Avaya edge switches will also need to be replaced and asks you "What kind of savings do Avaya Edge Switches offer over the competition?" Which three of the following reasons would you offer him? (Select three)

- A. Avaya Edge Switches can run on DC power, which enable up to 30% energy savings.
- B. Huge time savings because there is no need provision each phone and each edge switch manually.
- C. It eliminates human error in ensuring that the correct VLAN and QoS setting get assigned to each device automatically.
- D. When Miercom tested the ERS 4548GT-PWR series for example, they found that on D average it was 20-25% more energy efficient than the Cisco Catalyst 3750-X solution and the HP E4500 series solution and 50% more efficient than the Juniper EX 4200.

**Correct Answer:** ACD

#### QUESTION 6

While discussing a proposition with a prospective customer, they ask what the most important value propositions are that Avaya Data Center Solutions bring to the table. (Select the four most important value propositions)

- A. Cost - Minimizing and Simplifying
- B. Operations - Improving Time-to-Service
- C. Performance - Applications are optimized
- D. Availability - of business operations
- E. Scalability - Built for Seamless Growth
- F. Virtualization - of server capacity

**Correct Answer:** CDEF

#### QUESTION 7

A customer asks you about the benefits of stacking Avaya's Edge Switches. Which three of the following responses are correct? (Select three)

- A. Stacks share a single Power Supply, therefore save costs
- B. Stacks offer scalability. Units can be added as needed - up to eight
- C. Stacks are managed as a single entity
- D. Stacks protect against unit or cable failure with fail-safe stacking

**Correct Answer:** ACD

**QUESTION 8**

What makes Avaya's Fabric Connect fundamentally different to traditional IP networks?

- A. It uses OSPF to do the routing, based on the MAC address
- B. It uses a new Avaya proprietary protocol to get away from IP with all its limitations
- C. It uses MPLS in new and more efficient ways
- D. It enables a dynamic, agile and resilient network where Services need only be configured at the edge

**Correct Answer:** D

**QUESTION 9**

Two things that help to make the IT department more cost efficient include? (Select two)

- A. Automating repetitive tasks
- B. Having multiple administrators share the same PC
- C. Installing admin software on every admin computer
- D. Reducing the learning of multiple user interfaces

**Correct Answer:** AC

**QUESTION 10**

Avaya has a distinct advantage in the market because, unlike other vendors, our Fabric solution is not exclusive to only the largest and most expensive products. Which Avaya products currently support for our Fabric Connect technology? (Select three)

- A. ERS 3500 (typically used at the Branch Edge)
- B. VSP 9000 and ERS 8800 (typically used in the Core)
- C. ERS 4800 and VSP 4000 (typically used at the Wiring Closet Edge)
- D. VSP 7000 (typically used at the Data Center Edge)

**Correct Answer:** ACD

**QUESTION 11**

Which three of the following characteristics represents the key highlights of ERS 4800 models? (Select three)

- A. Stackable Chassis compatibility
- B. Support for 1/10 Gig SFP+ uplinks
- C. IPv6 forwarding of data traffic
- D. Avaya Fabric Connect services to the wiring closet

**Correct Answer:** ACD

**QUESTION 12**

A customer is questioning the time savings provided by Avaya's "Auto Unit Replacement". He says that replacing the unit is only a small part of the whole process. Configuring the new unit can take a long time. How could you respond?

- A. Explain that Miercom tested Avaya's claim back in 2011 and stated "When replacing a unit in a Stack, the new unit was able to boot up, load the configuration and become operational in two minutes and 11 seconds".
- B. Make your point by saying that a well-trained Avaya engineer can replace a unit in just over ten minutes.
- C. Make sure that the customer understands that "Auto Unit Replacement" only means the physical replacement of that unit and does not include configuration.

**Correct Answer:** C

**QUESTION 13**

How does Avaya VENA Fabric Connect help to reduce time-to-service? (Select two)

- A. Provisioning changes only need to be made to the edge of the network rather than to every device and link
- B. It replaces multiple legacy protocols with a vastly simplified implementation, extending VLANs Fabric-wide
- C. It uses industry standard CLI commands
- D. It uses MPLS in its core

**Correct Answer:** AC

**QUESTION 14**

Avaya Wireless solutions address the market with which three of the following key enablers: (Select three)

- A. Emergency services
- B. Removing a need for wireless transmission
- C. Enabling BYOD
- D. Relying on a carrier's network for wireless
- E. Next generation unified WLAN

**Correct Answer:** ADE

**QUESTION 15**

Which Avaya Switch is ideally suited to deliver today's pressing need for flexible, high-speed Ethernet connectivity in the high-performance Data Center Top-of-Rack (ToR) role?

- A. V5P7000
- B. ERS4800

- C. VSP9000
- D. ERS 5000

**Correct Answer:** D

**QUESTION 16**

You have a large enterprise customer who requires a next-generation solution for a mission- critical Data Center that supports their requirements for multi-tenancy. Select the product that meets their requirements for a future-ready platform (40/100 Gigabit Ethernet) and cost- effectively facilitates service integration.

- A. ERS8600
- B. VSP9000
- C. ERS8800
- D. ER5 8300

**Correct Answer:** B

**QUESTION 17**

The Shortest Path Bridging (SPB) standard is supported by multiple vendors. Which of the following features are added to create Avaya's Fabric Connect technology, our extended implementation of SPB? (Select three)

- A. Cloud based virtualization
- B. Unicast and Multicast support
- C. High-availability at the Edge
- D. Layer 3 support

**Correct Answer:** ACD

**QUESTION 18**

Which two of the following are key benefits of Virtual Provisioning Services?

- A. Hands-off configuration of the Avaya physical network devices based on predefined rules
- B. The on-box element management tool
- C. The WLAN software and the Site Model Designer
