QUESTION 1

An administrator has been tasked with disabling USB redirection for all finance users in the virtual desktop environment.

Which of the following options would meet the requirement?

A. Create a new golden image, deselect USB redirection at the Horizon agent installation, and push the new image to all desktop pools.

B. Open the Horizon Console and m Global Policies set the USB Access Policy to disabled.

C. Open the Horizon Console and in Desktop settings set the USB Access Policy to disabled for all finance users.

D. Create a Horizon Smart Policy, disable USB redirection, and set a condition matching all finance users.

Correct Answer: D

In Dynamic Environment Manager (formerly called User Environment Manager), the Horizon Smart Policies feature provides a single location for managing the user experience on Horizon 7, Horizon Cloud, and Horizon Apps. With the 9.10 release, the addition of computer-based policies means you can you configure general Computer Environment settings, as well as remote experience settings such as Flash multi-media redirection, integrated printing, USB redirection, and more. https://docs.vmware.com/en/VMware-Horizon-7/7.13/horizon-remote-desktop-features/GUID-473D8FD8-DB10-408F-A2C1-029E4CFC5D9E.html

QUESTION 2

An administrator configured a virtual machine to use an NVIDIA card but the virtual machine is not starting up. What could be the cause of the issue? (Choose two.)

A. No suitable host could be found.

B. Not all memory has been reserved on the VM.

C. Not all CPU has been reserved on the VM.

D. The Desktop Pool doesn\\'t support 3D cards.

E. 3D graphics cannot be used with local storage.

Correct Answer: AB

Reference: https://techzone.vmware.com/resource/deploying-hardware-accelerated-graphics-vmware-horizon-7#horizon-pool-and-farm-settings

If you configure a graphics card, and the host has no resources available (all GPU memory used for example) or not all guest memory has been reserved, then the VM won\\'t start. By process of elimination: Not all CPU has been reserved on the VM -> CPU reservation not necessary The Desktop Pool doesn\\'t support 3D cards -> There is no mention of Horizon within this question. 3D Graphics cannot be used with local storage -> 3D Graphics is not dependant on storage.

QUESTION 3

DRAG DROP

Drag and drop the high-level configuration steps for smart card authentication on the left into the correct sequential order on the right.

Select and Place:

Smart Card Authentication Step	Correct Sequence
Obtain the root certificate from the CA	Step 1
Prepare the AD for smart card authentication	Step 2
Configure smart card settings in the VMware Horizon console	Step 3
Add the root certificate to a server's truststore file	Step 4

Correct Answer:

Smart Card Authentication Step	Correct Sequence	
	Step 1	Obtain the root certificate from the CA
	Step 2	Add the root certificate to a server's truststore file
	Step 3	Configure smart card settings in the VMware Horizon console
	Step 4	Prepare the AD for smart card authentication

https://docs.vmware.com/en/VMware-Horizon/2111/horizon-console-administration/GUID-FA1A85D8-07B1-4140-A34B-7F20618083CE.html

QUESTION 4

What are two Cloud Pod Architecture feature limitations? (Choose two.)

A. Kiosk mode clients are not supported unless a workaround has been implemented.

B. Cloud Pod Architecture does not support Active Directory two-way trusts between domains.

C. Cloud Pod Architecture cannot span multiple sites and data centers simultaneously.

D. Cloud Pod Architecture is not supported with Unified Access Gateway appliances.

E. The Cloud Pod Architecture feature is not supported in an IPv6 environment.

Correct Answer: AE

Reference: https://docs.vmware.com/en/VMware-Horizon/2106/horizon-cloud-pod-architecture/GUID-B10A78D0-B0EB-4E94-9F6C-3A6BF79AA88D.html

---

QUESTION 5

Which two capabilities are supported by VMware Dynamic Environment Manager Application Profiler? (Choose two.)

A. It allows individual user personalization of applications.

B. It allows creation of computer templates.

C. It allows third-party user personalization of applications.

D. It allows creation of application-specific predefined settings.

E. It analyzes registry and file system location settings for an application.

Correct Answer: DE

Application Profiler analyzes at which registry and file system locations the settings for a particular application are stored, to create a Flex configuration file for use with User Environment Manager. https://docs.vmware.com/en/VMware Dynamic-Environment-Manager/9.8/com.vmware.user.environment.manager-app-profiler/GUID-ACFBA821-3B14-4FE6-BECF-D7ADA38BEA9D.html . and https://techzone.vmware.com/resource/what-vmware-dynamic-environmentmanager#profile-management -User settings= Instead of managing the entire profile, Dynamic Environment Manager captures the only specific user settings for the OS and applications that are important

---

QUESTION 6

An administrator needs to deploy an application to specific users in their instant-clone desktop environment with the following characteristics:

The application needs to be updated very frequently.

The application needs to be installed as soon as possible.

The application is not multi-user aware.

Which solution would meet the requirements?

A. VMware Horizon Published Application

B. VMware Thinapp

C. VMware App Volumes

D. VMware Dynamic Environment Manager

Correct Answer: C

This is easiest to do in an App Volumes environment as you can update the package and then set the new package as current. Since it needs to be deployed to instant-clone desktop users, a Published Application is not suited.

QUESTION 7

An administrator is deploying Horizon and wants to enable users to connect from the internet. What does the administrator need to deploy?

A. Unified Access Gateway in the DMZ

B. Replica Connection Server in the DMZ

C. New Horizon Pod in the DMZ

D. Security Server in the DMZ

Correct Answer: A

QUESTION 8

DRAG DROP

Drag and drop the Anywhere Workspace components on the left to their respective function on the right.

Select and Place:

Anywhere Workspace
Component

Workspace ONE UEM

Workspace ONE Access

VMware Horizon

Function Provided

	Ensures that the end user devices are in compliance with the organization's IT policies.
	Delivers a virtual desktop and application infrastructure.
	Provides authentication and conditional access to resources.

Correct Answer:

Anywhere Workspace Component

Function Provided

Workspace ONE UEM	Ensures that the end user devices are in compliance with the organization's IT policies.
VMware Horizon	Delivers a virtual desktop and application infrastructure.
Workspace ONE Access	Provides authentication and conditional access to resources.

Workspace ONE Access provides multi-factor authentication, conditional

QUESTION 9

Which can be used to make sure only certain Connection Servers are used for a Global Entitlement?

A. Category Folders

B. Home sites

C. Tags

D. Access Groups

Correct Answer: C

https://docs.vmware.com/en/VMware-Horizon/2203/horizon-cloud-pod-architecture/GUID-4CFD6907-AA23-42EA-B00C-39EC34819277.html

QUESTION 10

Select the correct command to decommission the Horizon Connection Server replica.

A. vdmadmin.exe

B. viewdbchk.cmd

C. lvmutil.cmd

D. vdmexport.exe

Correct Answer: A

Reference: https://kb.vmware.com/s/article/1010153

QUESTION 11

A user is assigned two writable volumes, one created using a Windows 7 and another using a Windows 10 machine. Which of the following scenarios will happen when the user logs on to a Windows 10 VM?

A. Both writable volumes gets attached to the Windows 10 machine.

B. Since a machine can have only one Writable Volume attached to it at a given point in time, and the user has two assigned writable volumes, none of them gets attached.

C. Since a machine can have only one Writable Volume attached to it at a given point in time, the user cannot have two assigned writable volumes.

D. The writable volume created using a using Windows 10 machine gets attached.

Correct Answer: D

A user can have more than one Writable Volume attached at the same time if the volume is OS-specific, or created for a computer with a specific prefix. For example, suppose that you create a Writable Volume for each of the following: A Windows 7 machine A Windows 10 machine A computer with Win2012-dev prefix to its name A computer with Win2012-test prefix to its name Then, when the user logs in to these different machines at the same time, each Writable Volume that is assigned to the specific machine is attached to the user at the same time.

https://docs.vmware.com/en/VMware-App-Volumes/2206/app-volumes-admin-guide/GUID-B527414C-C0DC-4096-89E8-D4E192C4131D.html

QUESTION 12

Which two steps must be completed in order to expand a writable volume? (Choose two.)

A. Select Volumes > Writables > Select Volume > Expand.

B. Modify the snapvol.cfg to reflect the new size.

C. Select Volumes > Writables > Select Volume > Update Writable.

D. Specify a size which is at least 1MB larger than the current size of the volume.

E. Specify a size which is at least 1GB larger than the current size of the volume.

Correct Answer: AE

Reference: https://docs.vmware.com/en/VMware-App-Volumes/2103/app-volumes-admin-

guide/GUID-9FE94390-8E16-4349-BC79-1D52CD9D32C4.html

QUESTION 13

Refer to the exhibit.

Publish Error:

- Fault type is AD_FAULT_FATAL -
  com.vmware.daas.cloneprep.ldap.LdapException
- unable to create connection pool, resultCode=82
  (local error), errorMessage=An error occurred
  while attempting to initialize the JAAS login
  context for GSSAPI authentication
- LoginException(Clients credentials have been
  revoked (18)), ldapSDKVersion=5.1.3,
  revision=028e004da97e22a274a4116316a73d0a9
  0526e4b

An administrator schedules the push of a new image to desktop pool and receives the exhibit. Where should the administrator first look for the cause of the issue?

A. Golden Image Active Directory Computer Account

B. Account used to login to the Horizon Console

C. Instant-clone Engine Domain Account

D. vCenter Server Administrator Account

Correct Answer: C

https://communities.vmware.com/t5/Horizon-Desktops-and-Apps/Horizon-View-8-2103-computer-account-trouble/td-p/2842002

QUESTION 14

An administrator wants to ensure that user\\'s desktop experience is consistent regardless of the desktop they connect to. What solution should be used to meet the requirement?

A. Persona Management

B. Dynamic Environment Manager

C. Local Profiles

D. Temporary Profiles

Correct Answer: B

Reference: https://techzone.vmware.com/quick-start-tutorial-series-vmware-horizon-7#_904651

QUESTION 15

Which storage product allows the pooling of resources to create datastores in a Software Defined Datacenter?

A. VMware VMFS

B. VMware vSAN

C. VMware Storage I/O Control

D. VMware HCI Mesh

Correct Answer: B
