- A. Small Business Server Standard license
For employees, Essential Business Server CAL Suite For volunteers, Essential Business Server CAL Suite
- B. Small Business Server Premium license
For employees, Essential Business Server CAL Suite for Premium For volunteers, Essential Business Server CAL Suite.
- C. Essential Business Server Standard license
For employees, Essential Business Server CAL Suite For volunteers, Essential Business Server CAL Suite
- D. Essential Business Server Premium license
For employees, Essential Business Server CAL Suite for Premium For volunteers, Essential Business Server CAL Suite

Answer: D

Question: 8

From the following Volume Licensing solutions, choose one which supports the third-party application that runs on SQL Server; meanwhile and reduces costs to the least. So which Volume Licensing solution should you choose?

- A. You should choose open value
- B. You should choose Campus Agreement
- C. You should choose Services Provider License Agreement
- D. You should choose Independent Software Vendor (ISV) Royalty Licensing Program

Answer: D

Case Study: 2

Contoso, LTD.

Company Background

Contoso, LTD provides managed services to medium-sized companies. Contoso has one office located in Seattle. The company has 100 full-time employees.

Existing Environment

Existing Licensing Solution

Contoso purchases OEM licenses for operating systems and uses an Open License agreement to purchase licenses for Microsoft Office.

Business Requirements

Planned Changes

Contoso expects to hire an additional 150 full-time employees this year. The company hires additional temporary employees for large projects. The company leases desktops for each temporary employee. The desktops are returned at the end of the project. In the next six months, Contoso plans to upgrade its servers from Windows Server 2003 to Windows Server 2008. Contoso plans to add an additional physical server that runs Windows Server 2008 and Hyper-V. The new physical server will host four virtual instances. The four virtual instances will also run Windows Server 2008.

Problem Statements

Contoso has difficulty tracking license purchases because a new license authorization number is opened for each new purchase.

Business Goals

Contoso has the following business goals:

- Standardize the desktop applications across the organization
- Use single product key for the installation of desktop applications
- Allow internal users to access internal company documents by using a Web browser
- Allow all users to create forms by using Microsoft Office InfoPath
- Store all forms in a central repository.
- Minimize the upfront costs of upgrading software.

- Provide a flexible licensing strategy that supports the fluctuating number of employees.
- Put in place long-term budget planning, while maintaining access to the latest versions of Microsoft software.

Question: 1

You need to recommend a Microsoft product that provides a central repository for forms. Which product should you recommend?

- A. Microsoft Office InfoPath
- B. Microsoft Interop Forms Toolkit
- C. Microsoft Office SharePoint Server for Internet sites

Answer: A

Question: 2

You need to recommend a Volume Licensing program that meets the company's business goals. Which program should you recommend?

- A. Select License
- B. Open License
- C. Open Value Subscription
- D. Open Value Company-wide

Answer: C

Question: 3

Contoso is evaluating the Open License program. Which two business goals prevent you from recommending this program? (Each correct answer presents part of the solution. Choose two.)

- A. Minimize the upfront costs of upgrading software.
- B. Standardize the desktop applications across the organization.
- C. Use a single product key for the installation of desktop applications.
- D. Provide a flexible licensing strategy that supports the fluctuating number of employees.

Answer: A, D

Question: 4

You need to identify the Volume Licensing program that supports the company's projected growth. Which program should you choose?

- A. Select Plus
- B. Enterprise Subscription
- C. Enterprise Subscription Agreement
- D. Open Value Non-Companywide

Answer: C

Explanation:

250 full-time employees and flexible licensing strategy that supports the fluctuating number of employees!

Question: 5

You need to recommend a licensing solution for the planned deployment of Hyper-V. What is the least amount of required Windows licenses?

- A. One Windows Server 2008 R2 Standard license
- B. One Windows Server 2008 R2 Enterprise license
- C. Four Windows Server 2008 R2 Standard licenses
- D. Five Windows Server 2008 R2 Enterprise licenses

Answer: B

Question: 6

Contoso plans to open a new office in Europe. Contoso wants to purchase all licenses under a single agreement. You need to recommend the Volume Licensing program that supports decentralized purchasing for Contoso. Which program should you recommend?

- A. Select License
- B. Open Value Subscription
- C. Open Value Non-Company-wide
- D. Services Provider License Agreement

Answer: A

Question: 7

You need to identify the Microsoft product that provides Contoso with the best return on investment (ROI) under an Open Value agreement. Which Microsoft product should you choose?

- A. Office Starter
- B. Office Standard
- C. Office Professional

D. Office Professional Plus

Answer: D

Question: 8

You need to identify the Volume Licensing rights that meet the company's business goals for installing desktop applications. Which rights should you identify?

- A. Downgrade Rights
- B. Re-imaging Rights
- C. Work at Home Rights
- D. Cross-Language Rights

Answer: B

Question: 9

You need to identify the license terms that are associated with the company's Office Professional Plus volume licenses. Which document should you use?

- A. Product Use Rights (PUR)
- B. Certificate of Authenticity (COA)
- C. Microsoft Software License Terms (MSLT)
- D. Microsoft Volume Licensing Fulfillment User Guide

Answer: A

Question: 10

The company needs a Microsoft product that provides the best return on investment (ROI) under an Open Value agreement. Of the Microsoft products, which one should be used?

- A. Office Professional 2007
- B. Office Professional Plus 2007
- C. Office Small Business Edition 2007
- D. Office Basic 2007

Answer: B

Case Study: 3

Proseware, Inc

Company Background

Corporate Information

Proseware, Inc. manufactures medical equipment.

Physical Locations

Proseware has an office in Chicago. The Chicago office has 150 employees.

Existing Environment

Existing Licensing Solution

Proseware purchases Microsoft software licenses under OEM agreements and Open License agreements.

Existing IT Environment

Each employee has a dedicated desktop. The desktops run different run different versions of Microsoft Windows and different versions of Microsoft Office.

Business Requirements

Planned Changes

The company plans to implement Windows SharePoint Foundation.

During the next two years, the company plans to migrate to Windows 7.

Proseware has determined that retaining new version rights for server products is not necessary.

During the next three years, Proseware plans to make the following changes:

- Replace all desktops
- Upgrade e-mail services to the current version of Exchange Server
- Upgrade all servers to the current version of Windows Server

Problem Statements

The company's software purchases are unplanned and improperly documented.

Business Goals

Case Study: 6

Tailspin Toys

Company Background

Corporate Information

Tailspin Toys is a toy manufacturing company. The company has 150 employees. The number of employees in each department is shown in the following table.

Department	Number of employees
Sales	80
Production	60
Management	10

Physical Locations

Tailspin Toys main office is located in Auckland, New Zealand. The company has 10 stores and 2 factories that are located within the same territory.

Existing Environment

Existing Licensing Solution

Tailspin Toys purchases all Microsoft Office license, Windows Server licenses, and Windows Server CALs through different Open License agreements. All Windows operating system licenses are OEM. No software is currently covered by Software Assurance.

Existing IT Environment

The network contains 20 desktops and 80 portable computers. The portable computers are used by the sales staff. All desktops and portable computers run Windows XP Professional and Office Professional.

The main office has a server that runs Windows Server 2003 and Exchange Server 2003. Each factory has a server that runs Windows Server 2003.

Business Requirements

Planned Changes

Tailspin Toys plans to do the following:

- Deploy a Web Portal solution to allow for data collaboration
- Provide all sales staff with Windows Mobile smartphones so that they can access e-mail remotely
- Migrate to Window 7 as soon as possible

Problem Statements

Tailspin Toys considers the current purchasing process too complicated. Tailspin Toy is concerned about license compliance.

Business Goals

Tailspin Toys has the following business goals:

- Improve control of the licensing purchase process
- Ensure that the sales staff is able to run Office on their home computers
- Ensure that Tailspin Toys has access to the latest Microsoft software
- Minimize the costs of licensing and deploying software
- Minimize the costs of managing computers
- Minimize the initial licensing costs of Windows 7, Windows Mobile, and the Web portal
- Retain perpetual use rights for all products purchased

- C. Microsoft SharePoint Server, Windows Server External Connector (EC)
- D. Microsoft SharePoint Server for Internet Sites Standard, Windows Server External Connector (EC)

Answer: D

Case Study: 7

A. Datum Corporation

Company Background

Corporate Information

- A. Datum Corporation is a fast-growing consulting company,
- A. Datum owns the following interests in two affiliate companies:

- 51 percent of Contoso, Ltd.
- 100 percent of Fabrikam, Inc.

The number of employees for each company is shown in the following table.

Company	Employees
A. Datum	100
Contoso	20
Fabrikam	40

All three companies have a flexible work environment that allows employees to work home. The employees in all three companies share customers and collaborate on projects.

Existing Environment

Existing Licensing Solution

The two affiliate companies purchase their licenses separately from A. Datum, and often pay a higher price for their software. A. Datum approves all purchasing decisions.

Existing IT Environment

Employees of all three companies have their own desktops. The desktops run Windows XP Professional or Windows Vista Business, and various versions of Microsoft Office.

The company has five servers that run Windows Server 2003

The IT department upgrades software every two years.

Business Requirements

Planned Changes

Company growth is expected to increase both the amount of sales and the number of employees over the next three years.

A. Datum plans to implement Microsoft SharePoint Server so that employees can collaborate on projects.

All sales staff will receive a PDA so that they can access Exchange while they are out of the office.

Business Problem

The IT department has a limited training budget. As a result, the IT staff finds it difficult to maintain newly deployed software.

Business Goals

A. Datum has the following business goals:

- Allow all employees to access the resources on all servers.
- Upgrade the servers in all three companies to run the latest version of Windows Server.
- Standardize the desktop operating systems in all three companies.
- Standardize the desktop applications in all three companies.
- Implement the latest version of Microsoft Exchange Server in all three companies in the next six months.
- Ensure that all employees can use the current version of Outlook and Outlook Web Access.
- Provide remote access to Office applications by using Remote Desktop Services.
- Minimize initial licensing costs.
- Minimize total licensing costs.
- Minimize the costs of technical support.
- Spend the entire software budget each fiscal year.
