QUESTION 6

DRAG DROP

You are planning the deployment of new applications for users in several departments.

You have three user groups. The groups are shown in the following table.

Group	Restrictions
Finance	The client computers in the finance department are very old. There are no plans to upgrade the computers. The finance department computers may not have sufficient hardware resources to run some of the new applications.
Research	An application for the research department must be tested locally without disrupting the operating systems of the research department client computers.
Human resources	An application for the human resources department must run only when the client computers in the human resources department are connected to the internal network. The application must be executed locally.

You need to identify the appropriate application delivery method for each department.

Which application delivery methods should you identify? To answer, drag the appropriate application delivery methods to the correct departments. Each method may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Select and Place:

Delivery Methods

Client Hyper-V

Installed locally

Microsoft Application Virtualization (App-V)

RemoteApp program

Answer Area

Finance: _____ Delivery method

Research: _____ Delivery method

Human resources: _____ Delivery method

Correct Answer:

Delivery Methods
