

100% Money Back Guarantee

Vendor: Cisco

Exam Code: 700-603

Exam Name: UCS Invicta for Field Engineers

Version: Demo

QUESTION 1

Which type of workload does Iometer that is configured to generate 4 K blocks, 50% read, 50% write, and 100% random operations represent?

- A. Bulk data load of a database table
- B. OLTP
- C. OLAP multidimensional cube
- D. Extract, transform, and load
- E. Data warehouse

Correct Answer: B

QUESTION 2

Which technology has had the weakest performance growth since the year 2000?

- A. Hard drives
- B. Memory
- C. Bus
- D. Broadband wireless
- E. Network
- F. Processors

Correct Answer: A

QUESTION 3

Which two systems does Hadoop consist of? (Choose two.)

- A. Atlas
- B. Map reduce
- C. ZFS
- D. HDFS
- E. A snowflake schema systems engine
- F. A star schema systems engine

Correct Answer: BD

QUESTION 4

Which settings must be configured on the management interface bond?

- A. IP address, subnet mask, MTU, mode, and boot order
- B. IP address, subnet mask, MTU, and mode
- C. IP address and subnet mask
- D. MAC address, IP address, subnet mask, and MTU
- E. MAC address, subnet mask, MTU, and mode

Correct Answer: A

QUESTION 5

Which statement about the creation of a new LUN when enabling LUN mirroring is true?

- A. The new LUN must be created on a performance node.
- B. The new LUN must not reside on the same scaling solution node as the original LUN to be mirrored.
- C. The new LUN must reside on the same scaling solution node as the original LUN to be mirrored.
- D. The new LUN must be created on a data reduction node.

Correct Answer: B

QUESTION 6

Which three options are three functions of a Cisco UCS Invicta scaling system router? (Choose three.)

- A. RAID
- B. Error correction
- C. Mirror protection
- D. Replication
- E. Host connectivity
- F. Power fail data protection

Correct Answer: CDE

QUESTION 7

How does Cisco UCS Invicta v5x provide scalability?

- A. Scale up
- B. Scale out
- C. Scale up/scale out
- D. Only half of the drive bays are populated when shipped by Cisco, allowing the customer to purchase additional drives to expand capacity when needed.
- E. Scale down

Correct Answer: C

QUESTION 8

Which two options are two characteristics of Hadoop? (Choose two.)

- A. It relies on complex star schema designs to efficiently handle decision support queries.
- B. It relies on distributed parallel processing.
- C. It is a very large OLTP database engine.
- D. It relies on a few very expensive compute platforms.
- E. It is a single appliance that integrates both software and hardware.
- F. It is an open source, batch data processing system.

Correct Answer: BF

QUESTION 9

For which option does Cisco UCS Invicta provide a virtual IP address?

- A. VIPs are not supported.
- B. For NFS shares
- C. For iSCSI targets
- D. For management interface

Correct Answer: D

QUESTION 10

What is the maximum number of SSDs that can be installed in a Cisco UCS Invicta appliance?

- A. 24
- B. 12
- C. 16
- D. 22

- E. 36
- F. 48

Correct Answer: A

QUESTION 11

In the Cisco UCS Invicta Scaling Solution, what is the maximum number of nodes allowed in a single volume?

- A. 1
- B. 2
- C. 3
- D. 4
- E. 5
- F. 6

Correct Answer: F

QUESTION 12

Which three options are three characteristics of the Cisco UCS Invicta process flow for writes? (Choose three.)

- A. It avoids complex garbage collection.
- B. Data is striped across all 22 drives for performance.
- C. Padding is added if the write is less than a full erase block.
- D. A 24 MB write buffer is used.
- E. One drive is reserved for parity.
- F. 4 KB erase blocks are used.

Correct Answer: ABC

QUESTION 13

Which option lists the three storage challenges of big data?

- A. Volume, viscosity, variety
- B. Volume, vision, velocity
- C. Size, sequencing, security
- D. Normalization, sorting, RBAC
- E. Volume, velocity, variety

Correct Answer: E

QUESTION 14

Which two challenges of batch processing environments is Cisco UCS Invicta well suited to address? (Choose two.)

- A. Batch processing during regular business hours
- B. NVRAM required by batch processes
- C. CPU resources required by batch processes
- D. Impact on subsequent batches if a batch does not finish in time
- E. Boot storms
- F. Logon storms

Correct Answer: BC

QUESTION 15

With how many physical SSDs can customers order Cisco UCS Invicta v5.0 appliances?

- A. 12 or 24
- B. 12
- C. 6, 12, or 24
- D. 6, 12, 18, or 24
- E. 22
- F. 24

Correct Answer: F

QUESTION 16

Which three challenges of virtual desktop infrastructure environments is Cisco UCS Invicta well suited to address? (Choose three.)

- A. Big data
- B. Antivirus scans
- C. Logon storm
- D. Capacitance storm
- E. Too many choices for desktop operating systems
- F. Boot storm

Correct Answer: AEF

QUESTION 17

Which statement describes how the LUN mirror name appears in the LUN list when it is successfully created?

- A. It appears in red on the LUN list.
- B. It appears in yellow on the LUN list.
- C. It appears in blue on the LUN list.
- D. It appears in green on the LUN list.
- E. It does not appear on the LUN list until the LUN is activated.

Correct Answer: D

QUESTION 18

Which three options are three benefits of bringing data acceleration into the computing domain? (Choose three.)

- A. Natural evolution of fabric computing, adding flash as a resource to the UCS fabric
- B. Enables provisioning of caching in front of slower storage media
- C. Easily consumable by customers via UCSD templates
- D. Improved data center power/cooling efficiency compared to stand-alone, network-attached, all-flash solution
- E. Brings scalable solid state acceleration closer to the application
- F. Provides fast storage not previously possible

Correct Answer: ACE

QUESTION 19

Which two statements about hard disk drives in a virtualization environment are true? (Choose two.)

- A. Hard disk drives are ideal to handle multiple random workloads.
- B. Hypervisors intelligently segregate random hard disk drive workloads from sequential hard disk drive workloads.
- C. All reads and writes become random as the hypervisor multiplexes VM requests.

- D. Storage systems dramatically improve performance of random hard disk drive workloads by implementing pre-fetching and read-ahead algorithms.
- E. Virtualization results in an "I/O Blender" effect on hard disk drive workloads.

Correct Answer: DE

QUESTION 20

In the Cisco UCS Invicta Scaling Solution, which option lists the node types that can be combined to create a volume that spans multiple nodes?

- A. Performance nodes
- B. Data reduction nodes
- C. Data reduction nodes and performance nodes
- D. Scaling solution router nodes

Correct Answer: C

QUESTION 21

Which type of workload does Iometer use that is configured to generate 32 K blocks, 100% read, 100% sequential operations represent?

- A. Email server
- B. OLTP
- C. Boot storm
- D. Extract, transform, and load
- E. Logon storm
- F. OLAP

Correct Answer: AC

QUESTION 22

Which three factors contribute to the ease of use of Cisco UCS Invicta? (Choose three.)

- A. Menu-driven CLI for day-to-day management
- B. Simplicity: just install and use
- C. Does not require performance tuning
- D. Enables consolidation of multiple workloads
- E. Plug and grow add additional resources as you need them
- F. Java applet for day-to-day management

Correct Answer: BCD

QUESTION 23

Which four options are four performance concerns with VDI deployments? (Choose four.)

- A. Patching
- B. Logon storm
- C. Boot storm
- D. Electrical storm
- E. System center performance
- F. Antivirus scan
- G. vCenter performance
- H. Horizon performance

Correct Answer: ABCG
