QUESTION 3

SIMULATION Project 6 of 7: Recall Overview You work in Customer Communications at Northwind Traders. You are preparing a product recall

announcement.

The screenshot shows a Microsoft Word document titled "Recall .docx". The ribbon includes File, Home, Insert, Design, Page Layout, References, Mailings, Review, View, and Easy Document Creator. The document content is as follows:

Product Recall Announcement

Magic Dehydrator

Our manufacturer has informed us that a small number of our Magic Dehydrators, product number TB01233-34, shipped with a potentially faulty heat regulator. Products impacted by this recall include serial numbers LS14399 through LS16358.

UNPLUG AND DO NOT USE THIS DEHYDRATOR

We regret any inconvenience that this might cause you. Northwind Traders is dedicated to providing you with reliable, high-quality, and safe products. The product sticker on the bottom of the dehydrator can determine whether or not your dehydrator is included in the recall. For affected models, there is a slight risk that the product might overheat when used, resulting in a potential burn hazard. DO NOT RETURN TO YOUR RETAILER. Go to the Northwind traders web site at [http:// www.northwindtraders.com/](http://www.northwindtraders.com/) and click on the "Product Recall" banner at the top of the page for return

instructions. You will receive a full refund for the dehydrator and we will also ship you a replacement dehydrator.

REMINDER:

Add the Integral header with the title "PRODUCT ANNOUNCEMENT".

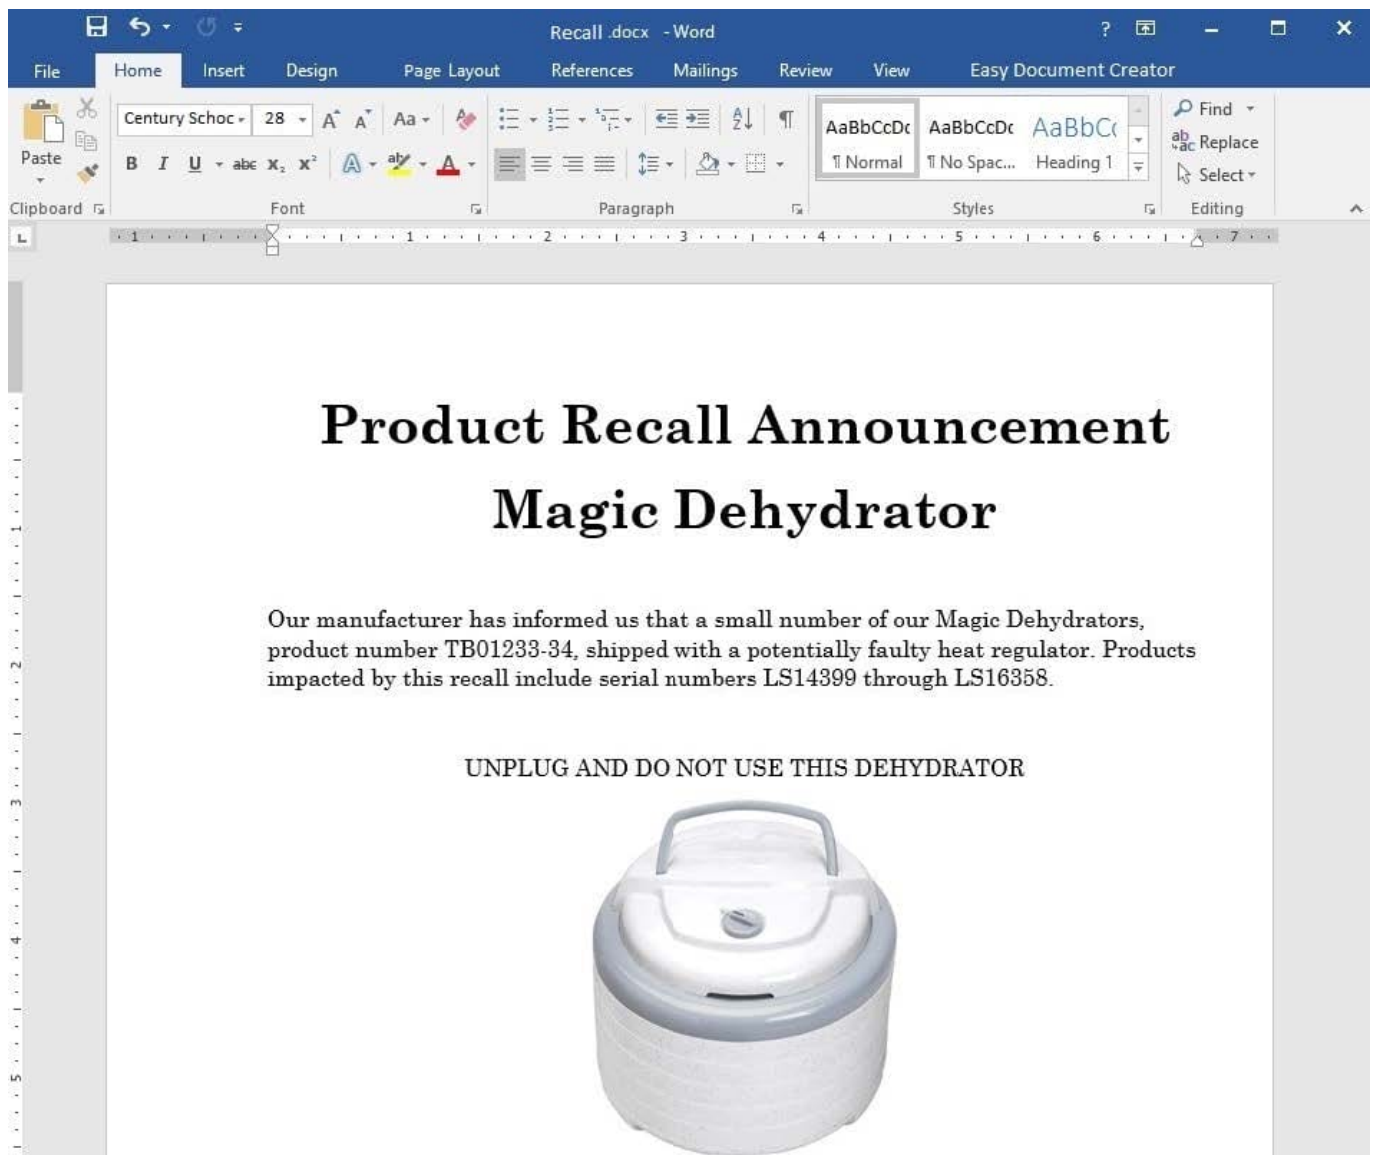

A.

Correct Answer: See the explanation below.

Fourth Coffee

Fourth Coffee wants to be your coffee company. We can provide the quality you want, and your customers demand at competitive prices. With over 50 years of experience, we know coffee.

The best beans Choose from our wide selection of coffees, or let us custom roast to your exact specifications.

carefully roasted

organically grown

We know we're small, but that means we can give you the kind of personal attention you want and deserve. Each batch is hand-roasted under constant supervision.

Whether it is whole bean or pre-ground, we can provide exactly what you're looking for.

ABOUT OUR COFFEE

All of our coffee is shade grown, organic, and fair trade certified.

Shade grown coffee helps to enhance flavor while reducing the clear-cutting of tropical rain forests.

Organic means that the coffee is grown without the use of chemical pesticides and fertilizers. This helps to preserve the health of the growers and the soil.

Fair trade certified coffee helps to guarantee that growers are given a fair price for their crop. Growers, in turn, have a chance for a better standard of living.

QUESTION 6

SIMULATION Project 1 of 7: Observation Overview You are a member of the Barstow College Observation Project committee. You are preparing the initial

summary report for this year's count, but have not received all of the data you need to complete the report.

Introduction

The multi-departmental Wildlife Observation Project has completed its wildlife population counts for this year. The counts were made between May 5 and May 7 for both the wilderness and cultivated land areas.

This is in line with the count periods for all previous years. The species used for the counts have been identified as common for the region (central Missouri) in which the counts were taken. (Author, 2009) As in previous years, five observation blinds were set up two weeks before the counts were to take place.

Counters worked eight-hour shifts providing 24-hour coverage of the count areas for two days. Weather for both observation days was clear and mild (varying between 50-70 degrees F).

The results presented here are summary total results only, which counts from five and ten years ago provided for comparison. Detailed observation results will be available as soon as they are completed. We estimate that they will be available some time in the next two weeks.

Wilderness Summary

The wilderness observation area is a five-acre section of unimproved forest land. The most common trees in the area are maple, red oak, cedar, sweet gum, and hickory. The area also includes a small spring. The area is not enclosed by a fence or other man-made barrier.

The area is located eight miles from the nearest paved road and twelve miles from the nearest residence.

Off-road vehicles were used to bring counters close to, but not entering, the count area. The nearest approach by off-road vehicles was one mile.

The table below lists the summary counts.

Species	Current Count	Five years ago	Ten years ago
White-tailed deer	14	12	10
Cottontail rabbit	26	28	25
Swamp rabbit	0	0	2
Mourning dove	18	59	102
Bobwhite quail	5	22	27
Eastern gray squirrel	23	20	31
Fox squirrel	6	11	9
NOTE TO REVIEW COMMITTEE: Don't you think it's time we finally drop the swamp rabbit from the count as an anomaly?			

Though further research any analysis is needed, the drop in mourning dove and bobwhite quail counts could be significant. The detailed count data shows these numbers failing off each year.

Cultivated Land Summary

The cultivated land observation area is a five-acre section of cultivated land near the center of a 50-acre field. The field is used to grow corn, wheat, soybeans, and clover, with the crop rotated annually. In the fifth year of the cycle, the field is left fallow.

The area is located two miles from the nearest paved road and one mile from the nearest residence. A storage barn is located at the southern border of the field.

The table below lists the summary counts.

Additional Notes

This project was initially scheduled to run for ten years, so we are currently in our last year. The committee needs to decide if it is worth the time and expense to continue the project. The landowners have

experience that they would be happy to let us continue. Costs relating to the project is minimal and it does provide an opportunity to offer extra credit to students volunteering as counters. A suggestion has been made by some committee members that we should increase the count frequency, counting on a quarterly schedule instead of an annual schedule. This would need to be coordinated with the owner of the cultivated field so that we do not interfere with planting or harvesting schedules.

Special Thanks

Once again, we would like to offer special thanks to:

We couldn't do this without you.

Add a table with eight rows and four columns in the "Cultivated Land Summary" section, below the text

"The table below lists the summary counts."

Correct Answer: See the explanation below.

Project 4 of 7: Member

Overview

You are preparing a letter to museum members announcing a new exhibit and urging them to renew their membership.

Dinosaurs, Dinosaurs

Baldwin Museum of Science

Dear Museum Member:

As you know, we occasionally have special offers that are limited to our members only. This is one of those times. Be among the first to see our new display, "Dinosaurs, Dinosaurs."

For the next six months our Presentation Dome is going to be home to a collection of life-sized, interactive dinosaurs. This display has travelled the world to the delight of adults and children.

And you get to see it first!

Current museum patrons can register at our web site (<http://baldwinmuseumofscience.com/>) to see the display before it is opened to the public. Be one of the first 200 patrons to register and you get to see it absolutely free! This offer is available to individual and family memberships only.

As long as you're going to the web site, now is a great time for you to renew your membership for the coming year. Remember that we offer individual, family, and group memberships with special discounts for school groups. Renew now and get a special gift you're sure to love.

Free passes are going to go quick, so be sure and register today.

Looking forward to seeing you,

Membership chairman

You are an administrative assistant for Fabrikam, Inc.'s Field Service division. You are preparing the monthly newsletter to be sent out to field service engineers.

Remember that mileage reimbursement claims must be submitted by the 15th of each month. Save the mileage form as a PDF file and email it to your regional supervisor.

Bonuses are Changing

New Depot Return Process

All offices have received the new tracking form for repair depot returns. Complete the following tasks when returning parts for repair:

Complete all fields in the Field Service section of the form.

Remove the top copy and file it in your office.

Securely attach the form to the part.

Package the part for shipment.

Ship to the home office and clearly label the box "For depot return".

All returns must be shipped to the home office to receive credit. The regional depots will close in two months and will not be accepting return shipments.
