QUESTION 1

The functional analysis process is used for translating system requirements into detailed function criteria. Which of the following are the elements of functional analysis process Each correct answer represents a complete solution. Choose all that apply.

A. Model possible overall system behaviors that are needed to achieve the system requirements.

B. Develop concepts and alternatives that are not technology or component bound.

C. Decompose functional requirements into discrete tasks or activities, the focus is still on technology not functions or components.

D. Use a top-down with some bottom-up approach verification.

Correct Answer: ABD

QUESTION 2

Which of the following memorandums reminds the departments and agencies of the OMB principles for including and funding security as an element of agency information technology systems and architectures and of the decision criteria which is used to evaluate security for information systems investments

A. OMB M-00-13

B. OMB M-99-18

C. OMB M-00-07

D. OMB M-03-19

Correct Answer: C

QUESTION 3

Which of the following guidelines is recommended for engineering, protecting, managing, processing, and

controlling national security and sensitive (although unclassified) information

A. Federal Information Processing Standard (FIPS)

B. Special Publication (SP)

C. NISTIRs (Internal Reports)

D. DIACAP by the United States Department of Defense (DoD)

Correct Answer: B

QUESTION 4

Lisa is the project manager of the SQL project for her company. She has completed the risk response planning with her project team and is now ready to update the risk register to reflect the risk response. Which of the following statements best describes the level of detail Lisa should include with the risk

responses she has created

A. The level of detail must define exactly the risk response for each identified risk.

B. The level of detail is set of project risk governance.

C. The level of detail is set by historical information.

D. The level of detail should correspond with the priority ranking.

Correct Answer: D

QUESTION 5

Which of the following techniques are used after a security breach and are intended to limit the extent of any damage caused by the incident

A. Corrective controls

B. Safeguards

C. Detective controls

D. Preventive controls

Correct Answer: A

QUESTION 6

Which of the following types of firewalls increases the security of data packets by remembering the state of connection at the network and the session layers as they pass through the filter

A. Stateless packet filter firewall

B. PIX firewall

C. Stateful packet filter firewall

D. Virtual firewall

Correct Answer: C

QUESTION 7

In 2003, NIST developed a new Certification and Accreditation (CandA) guideline known as FIPS 199. What levels of

potential impact are defined by FIPS 199 Each correct answer represents a complete solution. Choose all that apply.

A. High

B. Medium

C. Low

D. Moderate

Correct Answer: ABC

QUESTION 8

Which of the following DITSCAPNIACAP model phases is used to confirm that the evolving system development and integration complies with the agreements between role players documented in the first phase

A. Verification

B. Validation

C. Post accreditation

D. Definition

Correct Answer: A

QUESTION 9

Under which of the following CNSS policies, NIACAP is mandatory for all the systems that process USG classified information

A. NSTISSP No. 11

B. NSTISSP No. 101

C. NSTISSP No. 7

D. NSTISSP No. 6

Correct Answer: D

QUESTION 10

FIPS 199 defines the three levels of potential impact on organizations low, moderate, and high. Which of the following are the effects of loss of confidentiality, integrity, or availability in a high level potential impact

A. The loss of confidentiality, integrity, or availability might cause severe degradation in or loss of mission capability to an extent.

B. The loss of confidentiality, integrity, or availability might result in major financial losses.

C. The loss of confidentiality, integrity, or availability might result in a major damage to organizational assets.

D. The loss of confidentiality, integrity, or availability might result in severe damages like life threatening injuries or loss of life.

Correct Answer: ABCD

QUESTION 11

According to U.S. Department of Defense (DoD) Instruction 8500.2, there are eight Information Assurance (IA) areas, and the controls are referred to as IA controls. Which of the following are among the eight areas of IA defined by DoD Each correct answer represents a complete solution. Choose all that apply.

A. DC Security Design and Configuration

B. EC Enclave and Computing Environment

C. VI Vulnerability and Incident Management

D. Information systems acquisition, development, and maintenance

Correct Answer: ABC

QUESTION 12

Della works as a security engineer for BlueWell Inc. She wants to establish configuration management and control procedures that will document proposed or actual changes to the information system. Which of the following phases of NIST SP 800-37 CandA methodology will define the above task

A. Security Certification

B. Security Accreditation

C. Initiation

D. Continuous Monitoring

Correct Answer: D

QUESTION 13

Which of the following federal laws establishes roles and responsibilities for information security, risk management, testing, and training, and authorizes NIST and NSA to provide guidance for security planning and implementation

A. Computer Fraud and Abuse Act

B. Government Information Security Reform Act (GISRA)

C. Federal Information Security Management Act (FISMA)

D. Computer Security Act

Correct Answer: B

QUESTION 14

Which of the following are the major tasks of risk management Each correct answer represents a complete solution. Choose two.

A. Risk identification

B. Building Risk free systems

C. Assuring the integrity of organizational data

D. Risk control

Correct Answer: AD

QUESTION 15

Fill in the blank with an appropriate phrase. _____ is used to verify and accredit systems by making a standard process, set of activities, general tasks, and management structure.

Correct Answer: DITSCAPNIACAP
