

# 100% Money Back Guarantee

**Vendor:** HP

**Exam Code:** HP0-M48

**Exam Name:** HP LoadRunner 11.x Software

**Version:** Demo

**QUESTION: 1**

Which statement is true about the availability of VuGen?

- A. VuGen is only included when performing a full installation.
- B. An extra license is required to obtain VuGen.
- C. VuGen is available in a full installation, but is only activated if QuickTest Professional is also installed.
- D. VuGen is available in a full installation and as a standalone installation.

**Answer: D**

**QUESTION: 2**

Which features are provided by WAN Emulation? (Select two.)

- A. simulate network latency between Load Generators and tested machines
- B. measure network bandwidth utilization of HP LoadRunner hosts during tests
- C. measure response time of a transaction during performance tests
- D. define maximum bandwidth of a Load Generator
- E. monitor uptime of a Load Generator

**Answer: A, D**

**QUESTION: 3**

During a test run, why is it important to insert Run-time Monitors on Controller and Load Generator machines?

- A. to verify that Vuser ramp and Load Generator CPU usage are approximately the same
- B. to verify that your test architecture is properly isolated from external disturbance
- C. to ensure that test architecture performance is not lower than that of the architecture under test
- D. to ensure that your test architecture can generate the desired load without itself becoming a bottleneck

**Answer: D**

**QUESTION: 4**

Which goal is an example of a measurable goal?

- A. the number of iterations defined in the Run-time Settings (RTS)
- B. the identification of the name of the application server
- C. the expected transaction response time
- D. the number of Load Generators to be used

**Answer:** C

**QUESTION: 5**

Which goal is an example of a high level goal?

- A. Error rate may not be higher than 10% of all transactions.
- B. Update transaction must work in peak time.
- C. 500 users must be able to log in at the same time.
- D. The Search transaction may not take longer than 3 seconds.

**Answer:** B

**QUESTION: 6**

Which default port is used for the communication between MI\_Listener and Monitoring Agent?

- A. 443
- B. 1521
- C. 8080
- D. 50500

**Answer:** A

**QUESTION: 7**

Which HP LoadRunner application or component is used to upload the license?

- A. Controller
- B. Analysis
- C. Virtual User Generator
- D. Launcher

**Answer:** D

**QUESTION: 8**

Which tool is used to manage and maintain a scenario?

- A. VuGen
- B. Analysis
- C. Controller
- D. Load Generator
- E. Launcher

**Answer:** D

**QUESTION: 9**

The HP LoadRunner Controller can be connected and configured to collect monitoring data from which product?

- A. BPM
- B. SiteScope
- C. Asset Manager
- D. PPM

**Answer:** A

**QUESTION: 10**

Why is it important to know how the application under test is being used?

- A. to determine if an automated test is possible
- B. to define the sizing of the application server
- C. to define the number of load tests according to the usage
- D. to test real-world conditions as closely as possible

**Answer:** D

**QUESTION: 11**

Which monitoring application can you configure in HP LoadRunner to observe backend activity during a load test?

- A. HP Real User Monitor
- B. HP Performance Insight
- C. HP SiteScope
- D. HP OpenView

**Answer:** C

**QUESTION:** 12

Which statement is true about the planning of HP LoadRunner transactions and Pass/Fail test outcomes?

- A. Transactions do not influence the test result.
- B. When planning the transaction, the preferred response time should be defined.
- C. The transactions are not part of the planning process.
- D. Preferred response time only contains one user step, while a transaction can contain several.

**Answer:** B

**QUESTION:** 13

Why should you use different input data during a load test?

- A. to avoid caching and using different data as a real user would do
- B. to maintain several versions of the same script when using parameterization
- C. to avoid script errors when running in several iterations
- D. to reduce correlation problems

**Answer:** A

**QUESTION:** 14

Which technique helps to identify bottlenecks?

- A. mapping business processes to infrastructure
- B. knowing the number of components of the application
- C. using only automatic transactions
- D. using dynamic input data errors when running in several iterations

E. to reduce correlation problems

**Answer:** A

**QUESTION: 15**

You want to allow only 50 Vusers to initialize at one time. Where do you define this value?

- A. Script Preferences
- B. Script Run-time Settings
- C. Scenario Run-time Settings
- D. Load Generator dialog box

**Answer:** B

**QUESTION: 16**

Which HP LoadRunner component is used for scripting?

- A. Controller
- B. Analysis
- C. Virtual User Generator
- D. Load Generator

**Answer:** C

**QUESTION: 17**

How many Controllers can simultaneously connect to a Load Generator?

- A. only one
- B. only two
- C. There is no restriction.
- D. up to three

**Answer:** A

**QUESTION: 18**

What is the essential HP LoadRunner component critical to performance test execution, required for a performance test to be carried out?

- A. VuGen
- B. Controller
- C. Analysis
- D. Monitor Over Firewall
- E. SiteScope
- F. Diagnostic Probe
- G. QuickTest Professional time should be defined.

**Answer:** B

**QUESTION:** 19

On which platform can the Controller be installed?

- A. UNIX
- B. Linux
- C. Windows
- D. Sun Solaris

**Answer:** B

**QUESTION:** 20

Which Operating System setting must be disabled for installing a Load Generator?

- A. hyper-threading
- B. multi language support
- C. virtual memory
- D. additional network interface

**Answer:** A

**QUESTION:** 21

Where can the Standalone Analysis installation be obtained?

- A. from the support page

- B. from the Additional Components folder of the installation media
- C. from a separate CD
- D. from an HP sales representative

**Answer:** B

**QUESTION:** 22

During a Top Time Transaction run, what is the recommended load percentage?

- A. 20%
- B. 35%
- C. 50%
- D. 100%

**Answer:** A

**QUESTION:** 23

Which scenario type allows you to add, start, and stop Vusers during a scenario run?

- A. Manual
- B. Real-Life
- C. User-Defined
- D. Goal-Oriented

**Answer:** A

**QUESTION:** 24

You are analyzing the results for a Debug run and realize that response times are better than SLAs. What should you do?

- A. Re-run the scenario to validate the transaction response times.
- B. Prepare for overload/scalability testing because the application is ready for additional users.
- C. Ignore the transaction response times because they are meaningless in a Debug run.
- D. Inform the project manager that additional performance tests are not necessary.

**Answer:** C

**QUESTION: 25**

In the Run-time Settings, where can you set your script to run 10 iterations?

- A. General: Pacing
- B. General: Run Logic
- C. Network: Speed Simulation
- D. Data Format Extension: Configuration
- E. General: Run Iterations

**Answer: B**

**QUESTION: 26**

Which goals can you set for a goal-oriented scenario? (Select two.)

- A. Hits / second
- B. Maximum Errors / second
- C. Maximum Failed Transactions / second
- D. Simultaneous Vusers
- E. Maximum CPU Usage / target machine (which will be monitored)

**Answer: A, D**

**QUESTION: 27**

Click the Exhibit button.

What is an accurate description of the schedule shown in the exhibit?

- A. The scenario is scheduled by scenario, consisting of two groups: one group with 10 Vusers, the other group with 15 Vusers. The duration action is set for 5 minutes.
- B. The scenario is scheduled by group, consisting of two groups: one group with 10 Vusers, the other group with 15 Vusers. Each group has the ramp up set to 1 Vuser every 5 seconds.
- C. The scenario is scheduled by group, consisting of two groups: one group with 10 Vusers, the other group with 15 Vusers. Each group has the duration action scheduled for 5 minutes.
- D. The scenario is scheduled by scenario, consisting of one group. The ramp up is set to 2 Vusers every 20 seconds. Duration is set to 5 minutes, and ramp down is set to 5 Vusers every 30 seconds.

**Answer:** C

**QUESTION:** 28

When scheduling a scenario, which run modes are available in the Controller? (Select two.)

- A. Scenario
- B. Global Schedule
- C. Real-World Schedule
- D. Basic Schedule
- E. Group
- F. Duration

**Answer:** C, D

**QUESTION:** 29

Which measure can be evaluated in SLA Analysis on a single SLA status for the whole scenario run?

- A. Total Transactions per Second
- B. Errors per Second
- C. Transactions Failed per run
- D. Average Hits (hits/second) per run

**Answer:** D

**QUESTION: 30**

Which measure can be evaluated in SLA Analysis on SLA statuses determined at time intervals over a timeline?

- A. Network Bytes Sent per Run
- B. Transactions Completed per Run
- C. Average Throughput (bytes/second) per Run
- D. Average Transaction Response Time

**Answer: D**

**QUESTION: 31**

What is the recommended transaction monitoring frequency for large scenarios?

- A. 3
- B. 10
- C. 15
- D. 30

**Answer: C**

**QUESTION: 32**

Which Online Monitors are System Resource Monitors? (Select two.)

- A. SNMP
- B. SiteScope
- C. Running Virtual Users
- D. SSL per Second
- E. Microsoft IIS

**Answer: A, B**

# Trying our product !

- ★ **100%** Guaranteed Success
- ★ **100%** Money Back Guarantee
- ★ **365 Days** Free Update
- ★ **Instant Download** After Purchase
- ★ **24x7** Customer Support
- ★ Average **99.9%** Success Rate
- ★ More than **69,000** Satisfied Customers Worldwide
- ★ Multi-Platform capabilities - **Windows, Mac, Android, iPhone, iPod, iPad, Kindle**

## Need Help

Please provide as much detail as possible so we can best assist you.

To update a previously submitted ticket:

 <b>One Year Free Update</b> Free update is available within One Year after your purchase. After One Year, you will get 50% discounts for updating. And we are proud to boast a 24/7 efficient Customer Support system via Email.	 <b>Money Back Guarantee</b> To ensure that you are spending on quality products, we provide 100% money back guarantee for 30 days from the date of purchase.	 <b>Security &amp; Privacy</b> We respect customer privacy. We use McAfee's security service to provide you with utmost security for your personal information & peace of mind.
