QUESTION 2

When adding a Fixlet or task to a baseline, which option is used automatically as the action?

A. Action 1

B. Quick Action

C. Default Action

D. No action is used automatically.

Correct Answer: C

Both Fixlets and Tasks might have a Default Action, allowing you to simply click from the list to deploy it. They can both be grouped into Baselines, allowing higher levels of automation. If you create a Baseline of Fixlets or Tasks which all contain default Actions, you can turn the tedious chores of maintaining a corporate policy or common operating environment into a single-click operation.
