QUESTION 1

When would an administrator delete and purge a user\\'s storage document in the vpuserinfo.nsf database?

A. When all users are unable to add a user to their contact lists

B. When one user is having issues storing chat history in her mail file

C. When one user is having issues with logging into the IBM Sametime Community Server

D. When all users are having issues with logging into the IBM Sametime Community Server

Correct Answer: C

QUESTION 2

How would Mike install the IBM Sametime Community Sewer?

A. He would use the Sametime System Console to install IBM Domino server and Sametime Community Server.

B. He would install the Sametime Community Sewer on a computer that has the Domino server already installed on it.

C. He would install Sametime Community Server on a computer that has I BM WebSphere Application Server already installed on it.

D. He would launch setupwin32.exe or setupaix.binZsetuplinux.bin and follow the Guided Activities to install both Domino and Sametime Community servers.

Correct Answer: B

QUESTION 3

Jeff automatically pushed updates to his installed clients via the "Sametime update site URL" parameter. Where did Jeff find this parameter?

A. In a plugin_customization.ini file on the clients

B. In a Sametime Policy in the stpolicy.nsf on the Sametime Community Server

C. In the Sametime System Console under Manage Policies > Instant Messaging

D. In a Desktop policy in the names.nsf on the IBM Sametime Community Server

Correct Answer: B

QUESTION 4

Vanessa wants to be logged on to IBM Sametime, but invisible to everyone outside of her team.

In order to accomplish this task, what must she select after she clicks on the "When I am Online" tab under the Privacy Settings options?

A. "ONLY those on this list can see me online."

B. "ASK ME before responding to their messages."

C. "Everyone EXCEPT those on this list can see me online."

D. From the list of users shown, select who she wants to include.

Correct Answer: D

QUESTION 5

What protocol is port 389 used for with the IBM Sametime Community Server?

A. SSL

B. HTTP

C. LDAP

D. SMTP

Correct Answer: B

QUESTION 6

Thomas decided to enable debug on his IBM Sametime Community 9.0 Server by adding the trace level VP_TRACE_ALL=1.

Where will this trace level be set?

A. notes.ini

B. stconfig.nsf

C. stcenter.nsf

D. sametime.ini

Correct Answer: D

QUESTION 7

Where would an IBM Sametime Administrator manage the Instant Messaging policies for the Sametime Community?

A. in the Sametime Policy database in the IBM Domino Data directory on the Sametime Community Server

B. in the Sametime Policy database in the IBM Domino Program directory on the Sametime Community Server

C. on the Configuration > Community Service tab in the Sametime Administration Tool on the Sametime Community Server

D. on the Sametime System Console > Sametime System Console > Manage Policies > Instant Messaging tab in the Sametime System Console

Correct Answer: D

QUESTION 8

To avoid a scenario in which a very high level of user activity might cause an out-of-memory error to occur, an administrator can set the maximum session property to a predefined limit.

What two session levels can be configured?

A. Cell

B. Global

C. Server

D. Bandwidth

E. Community

Correct Answer: CE

QUESTION 9

If a JVM-based process crashes on an IBM Sametime Community server, in which directory does the core dump file appear?

A. Domino Data

B. Domino Program

C. Trace directory in Domino Program

D. IBM_Technical_Support directory in Domino Data

Correct Answer: C

QUESTION 10

Carl has imported the LTPA token into the IBM WebSphere instances that the IBM Sametime Meeting Server is running on. However, after using other Sametime servers and then accessing the Sametime Meeting Server, a user complained that he was being challenged to provide his credentials while his colleagues were not.

Why is this user being challenged to re-authenticate?

A. Carl needs to re-start the Sametime Meeting Server since the LTPA token has expired.

B. The LTPA token must be corrupt and needs Carl to re-import it again for single sign-on (SSO) to work properly.

C. The user\\'s Active Directory password has expired and needs to be reset so that the Sametime Meeting Server can recognize the new credentials.

D. The user must enter the fully qualified domain name of the Sametime server when accessing the Sametime server to authenticate successfully using SSO.

Correct Answer: D

QUESTION 11

Luis is considering the deployment options before installing the IBM Sametime Video Multipoint Control Unit(MCU).

Which option is valid?

A. Only one MCU can be deployed.

B. Sametime Video MCU is an RPM install and cannot be clustered.

C. MCUs must be managed via a separate WebSphere Deployment Manager.

D. Multiple MCUs can be installed on the same hardware as they are only used to control the quality of the audio and video.

Correct Answer: C

QUESTION 12

What is the requirement when configuring single sign-on for IBM Sametime 9.0 under the Global Security Single Sign-on (SSO) section?

A. Under Interoperability Mode - LTPA V1 Cookie name must be added as LtpaToken.

B. Under Global Security > Single Sign-On (SSO), "Requires SSL" should be selected.

C. Under Global Security > Single Sign-On (SSO) - LTPA V2 Cookie Name is not needed.

D. Under Global Security > Single Sign-On (SSO). select "Set Security cookies to HTTPOnly to help prevent cross-site script attacks".

Correct Answer: A

QUESTION 13

How many IBM Sametime 9.0 Media Manager cluster instances can be managed by the Sametime System Console?

A. None

B. One

C. Two

D. Four

Correct Answer: B

QUESTION 14

Renovations Inc. has acquired a new division from ZetaBank and merged them into their LDAP directory so they can access IBM Sametime Instant Messaging. The LDAP administrator has sent this excerpt of the directory to the Sametime administrator to acknowledge the merge has been performed:

CN=John Doe,OU=Austin,OU=People,O=Renovations
CN=Jane Doe,OU=Dallas,OU=People,O=Renovations
CN=John Smith,OU=Research,OU=ZetaBank,OU=Acquisitions,O=Renovations
CN=Jane Roe,OU=Research,OU=ZetaBank,OU=Acquisitions,O=Renovations

Users from the ZetaBank acquisition are not able to log into Sametime Instant Messaging. What should the Sametime administrator do to correct the issue?

A. Reset the user passwords.

B. Modify the base DN for search.

C. Restart the Sametime Community Server.

D. Modify the search filter "Search filter for resolving person names".

Correct Answer: C

QUESTION 15

When would an IBM Sametime administrator need to deploy an IBM WebSphere Proxy Server with a deployed SIP Proxy Server?

A. When building an IBM DB2 cluster

B. when building a Sametime Gateway cluster

C. when building a Sametime Community cluster

D. when building more then one Sametime MUX in the same data center

Correct Answer: C
