- A. process configuration, reporting, and business process management
- B. task tracking, planning, and source control management
- C. build automation, performance testing, and test virtualization
- D. planning, real time dashboards, and use-case modeling

Correct Answer: B

QUESTION 7

What does the filled-in shape icon shown below indicate in Team Artifacts view?

- A. Files in that component have been checked out.
- B. All files from that component have been loaded into a local sandbox.

- C. There are incoming changes in that component.
- D. There are outgoing changes in that component.

Correct Answer: B

QUESTION 8

A user discovers they have outgoing pending changes they did not make. What is the most likely explanation?

- A. Someone else delivered changes to the user's repository workspace.
- B. Someone reverted changes that the user had already accepted in their repository workspace.
- C. The team lead changed the baseline of a component on the integration stream to which the user's repository workspace delivers its changes to.
- D. A new component was added to the integration stream that the user's repository workspace delivers its changes to.

Correct Answer: B

QUESTION 9

How do you make use of a process template?

- A. By adding the team members to the process template
- B. By specifying the process template when you create a project area.
- C. By associating a process template to the current iteration.
- D. By creating a process template category for the project

Correct Answer: B

QUESTION 10

A team wants to make some attributes mandatory when work items are created. In order to meet this objective, what can be done in Rational Team Concert ?

- A. Work item attributes are all optional by design and there is no way to define mandatory attributes for work items
- B. Add a precondition to the Work Item Save operation to define which fields in a work item must be filled in before it can be saved
- C. Work item attributes are all mandatory by design. Users who create a work item are required to fill in all the attributes.
- D. Add a follow-up action to the Work Item Save operation to define the error message to display when mandatory attributes are not filled in

Correct Answer: B
