QUESTION 1

What are the consequences of setting a production order to Technically Complete (TECO)? (Choose three)

- A. The order is no longer relevant for material requirements planning.
- B. Capacity requirements are set to null.
- C. Confirmations are no longer possible.
- D. Reservations are no longer relevant for material requirements planning.
- E. The order and its operations receive the system status Locked (LKD).

Correct Answer: ABD

QUESTION 2

What features related to process orders can be used to fulfill Good Manufacturing Practices (GMP) requirements? (Choose three)

- A. Approved master recipes
- B. Digital signature
- C. Electronic batch record
- D. Availability check
- E. Resource selection

Correct Answer: ABC

QUESTION 3

Which of the following activities within the KANBAN procedure normally triggers subsequent stock posting of the goods receipt?

- A. Set "Container in process"
- B. Set "Container empty"
- C. Set "Container in transport"
- D. Set "Container full"

Correct Answer: D

**QUESTION 4**

Which of the following items of master data are needed for repetitive manufacturing? (Choose three)

- A. Production supply area
- B. Repetitive manufacturing profile
- C. Production version
- D. Master record for serial numbers
- E. Product cost collector

Correct Answer: BCE

QUESTION 5

Which of the following scheduling types can only be used in capacity planning?

- A. Midpoint
- B. Forward
- C. Only capacity requirements
- D. Backward

Correct Answer: A

QUESTION 6

You use a planning time fence and fixing type 1. You receive a customer order with a material availability date within the planning time fence.

What do you have to consider in this scenario?

- A. Requirements planning considers only changes that are relevant for scheduling within the planning time fence.
- B. Planned orders are created within the planning time fence and automatically firmed by requirements planning.
- C. The MRP controller cannot create planned orders within the planning time fence.
- D. Planned orders that are created by requirements planning are shifted to the end of the planning time fence.

Correct Answer: D

**QUESTION 7**

Which of the following master data is necessary for the creation of material reservations for production orders?

- A. Material master records
- B. Production/resource tools
- C. Routings
- D. Production versions

Correct Answer: A

QUESTION 8

During a project phase, your customer raises some questions concerning parameters of the procurement type in the material master in the SAP ECC system.

Which of the following procurement type properties are valid? (Choose two)

- A. If both procurement types are allowed with entry X (both procurement types), requirements planning assumes in-house production.
- B. Procurement types E (in-house production) and F (external procurement) always have to be further refined with special procurement types.
- C. Procurement types E (in-house production), F (external procurement), or X (both procurement types) can be selected for a material independent of the material type.
- D. If procurement type E (in-house production) is set, external procurement may still be possible, depending on the material type.

Correct Answer: AD

QUESTION 9

In what sequence are the steps of material requirements planning performed in SAP ECC?

- A. 1. Net requirements calculation
- 2. Lot sizing
- 3. Determination of the procurement type
- 4.

Scheduling

B. 1. Calculation of safety stock

2.

Lot sizing

3.

Scheduling

4.

Determination of the procurement type

C. 1. Availability check

2.

Lot sizing

3.

Determination of the procurement type

4.

Scheduling

D. 1. Net requirements calculation

2.

Lot sizing

3.

Scheduling

4.

Determination of the procurement type

Correct Answer: A

QUESTION 10

What do you have to consider when you use SAP ECC long-term planning (LTP)? (Choose two)

A. A planning scenario must be released before it can be used in LTP.

B. Reorder point planned materials can be included in LTP.

C. LTP focuses on the operational planning of important components.

D. LTP creates purchase requisitions for external procurement.

Correct Answer: AB

QUESTION 11

What could be a consequence of the confirmation of an operation?

- A. Settlement of the actual costs
- B. Reduction of capacity requirements
- C. Rescheduling of the production order
- D. Update of the planned costs

Correct Answer: B

QUESTION 12

Which types of objects can be changed with Engineering Change Management (ECM)? (Choose three)

- A. Task list
- B. Work center
- C. Production version
- D. Bill of material
- E. Material master

Correct Answer: ADE

QUESTION 13

Which of the following are characteristics of ECC master production scheduling (MPS)? (Choose three)

- A. MPS items are planned in a standard MRP run.
- B. The planning of MPS and non-MPS items is always carried out in one planning run.
- C. Non-MPS items can be taken into consideration by an MPS run.
- D. MPS items can be defined on plant level.
- E. MPS items can be defined on MRP area level.

Correct Answer: CDE

QUESTION 14

What do you have to consider regarding consumption? (Choose two)

- A. Consumption takes place on the material level between the planned independent requirements and the planned orders.
- B. Consumption is restructured with the planning run.
- C. Consumption can take place between order reservations and planned independent requirements, depending on the strategy.
- D. Consumption parameters (consumption mode and consumption interval) can be set in the material master or in the MRP group.

Correct Answer: CD

QUESTION 15

What sequence do you follow in master data maintenance to define the production of a material?

- A. Create work centers -> Create routing -> Create BOM -> Carry out component assignment in work center
- B. Create routing -> Create work centers -> Create BOM -> Carry out component assignment in BOM or routing
- C. Create BOM -> Create work centers -> Create routing -> Carry out component assignment in work center
- D. Create BOM -> Create work centers -> Create routing -> Carry out component assignment in BOM or routing

Correct Answer: D
