**QUESTION 1**

You need to automate the deployment of 20 base Jenkins masters. In order to do this, you set the system property `jenkins.install.runSetupWizard` to the Value "false".

Which is TRUE about your Jenkins masters?

- A. No default administrator account is created; you have to configure security manually.
- B. A default administrator account is created with username "admin" and password "admin".
- C. A default administrator account is created with username "admin" and password from the file `JENKINS_HOME/secrets/initialAdminPassword`.
- D. A default administrator account is created and you cannot re-enable security.

Correct Answer: A

---

**QUESTION 2**

Why is the performance of a Jenkins master improved by using a distributed builds architecture?

- A. Because executors cannot be allocated on the master.
- B. Because executors offloaded onto build nodes are not performant.
- C. Because it prevents the CPU being overloaded during parallel polls.
- D. Because it prevents builds from overloading a master's CPU/memory.
- E. Because builds cannot be run in parallel on a master.

Correct Answer: D

---

**QUESTION 3**

Which of the following are true when using build parameters? Choose 3 answers

- A. If your Jenkinsfile specifies parameters with the `parameters{}` directive, those are the only parameters recognized when the Pipeline executes; any parameters that were specified in the "Project is parameterized" section of the Job configuration are cleared.
- B. Use the `params` object to reference parameters that are defined in the "The project is parameterized" section of the job configuration.
- C. Use the `parameters` directive to define parameters for your Pipeline inside your Pipeline code.
- D. If you configure a build parameter of type File, then users can specify a file on the server as build input.

Correct Answer: ABC

---

**QUESTION 4**

You are an administrator of a base Jenkins master with the recommended plugin set and you want to connect a new agent using SSH. Authentication on the remote node that will host the agent is done with an SSH key pair which your users must NOT be able to see or access. Which of the following is TRUE assuming your users do not have admin rights?

- A. Use a credential "SSH Username with private key", restricted to the Scope "System", for the node's SSH authentication.
- B. You cannot use an SSH key-pair. Configure a password for the agent's SSH user, and create a credential of type "Username with password" for the node's SSH authentication.
- C. Use a credential "SSH Username with private key", restricted to the Scope "Agents", for the node's SSH authentication.
- D. The SSH key will be stored in the JENKINS\_HOME/.ssh folder. Configure the agent to use a key from the "standard" SSH folder.

Correct Answer: A

---

**QUESTION 5**

Which Jenkins job status indicates that tests failed ?

- A. Aborted
- B. Success
- C. Unstable
- D. Failure
- E. Not Built

Correct Answer: C

---

**QUESTION 6**

Which can be defined in and limited to a specific folder and its subfolders? Choose 4 answers A. Permissions to run jobs and Pipeline

- B. Credentials
- C. View definitions
- D. Plugins
- E. Pipeline shared libraries

Correct Answer: ABCE

---

**QUESTION 7**

What is the preferred method for a Jenkins administrator to notify nil Jenkins users about upcoming system maintenance?

- A. Add text to the "System Message" field on the "System Configuration" page to populate a banner displayed across the top of the master's home page.
- B. On the "System Configuration" page, choose the "Maintenance Alerts" option from the "Alerts" dropdown menu and populate the box with a message to be added to all build logs.
- C. Populate the "Email Notifications" section of the "System Configuration" page with a message to be sent as email to all registered Jenkins users.
- D. On the master's dashboard, click "add description" or "edit description" to populate a banner displayed across the top of the master's home page.

Correct Answer: B

---

**QUESTION 8**

You want to execute a Job passing one parameter via the Jenkins REST API. The correct syntax for this is `http://server/Job/myjob_____`.

- A. `/build?Parameter=Value`
- B. `/buildWithParameters?Parameter=Value`
- C. `/buildWithParameters`
- D. `/build?Parameters=Value`

Correct Answer: B

---

**QUESTION 9**

Which enables you to use artifacts from a completed build in the workspace of the currently running build?

- A. Jenkins core
- B. Copy Artifact plugin.
- C. Rebuild plugin.
- D. ArtifactDeployer plugin.

Correct Answer: B

---

**QUESTION 10**

A freestyle job is set up to "Enable concurrent builds if necessary" and configured to run on a single node. How can you ensure that multiple concurrent runs share the same workspace?

- A. Pass the argument `-Dhuason.model.Run.lockworkspace=false` in the Jenkins master Invocation.
- B. Check "Do not lock workspace" In the Advanced Project Options of the project.
- C. Multiple concurrent runs can never share the same workspace.
- D. Define a "Custom workspace" path for the job.

Correct Answer: D
