QUESTION 1

How much data can DQA handle?

- A. 2000 rows and 20 columns
- B. Million rows and 100 columns
- C. There are no built-in restrictions. Large deployments will require more hardware and database tuning
- D. Maximum 1 million rows and up to 10,000 columns

Correct Answer: B

QUESTION 2

Accelerators provide which of the following? Choose 4 answers

- A. Rules
- B. Reference tables
- C. Demonstration mappings
- D. Demonstration data objects
- E. Profiles

Correct Answer: ACDE

QUESTION 3

During a project export, typically what will the output be from the export?

- A. An xml file containing all the mapping/maplet/object definition
- B. An xml file containing all the mapping/maplet/object definition and a zip file containing all the reference data if required
- C. The contents of each Project (including the dependent reference tables) in a zip file
- D. Projects will be exported to an .irob file

Correct Answer: B

QUESTION 4

With respect to field matching in IDQ, which best describes the approach to address matching?

- A. No standardization is necessary, map input fields to the match transformation
- B. Standardize address fields and use address line, locality, region and postcode fields as input to the match transformation
- C. Standardize address fields and use the discrete address component fields, locality, region and postcode fields as input to the match transformation
- D. Standardize address fields, create a group key field which contains parts of the address fields and only use the group key for address matching

Correct Answer: B

Reference: <http://scn.sap.com/docs/DOC-30172>

QUESTION 5

Which of the following options is TRUE? The Advanced Import Wizard differs from the Basic in that

- A. The Advanced method allows conflict resolution and the Basic doesn't.
- B. The Advanced Import Wizard allows objects to be imported into multiple target projects / folders and re-factor the dependencies.
- C. Import steps can be undone in the Advanced Wizard but not in the Basic one
- D. Users have a choice regarding which project objects are imported using Basic and Advanced.

Correct Answer: D
