QUESTION 7

What are three reasons to move to a public cloud? (Choose three.)

- A. Always the least expensive solution
- B. Provides greatest control over customer data
- C. Application marketplace allows faster deployment of software and services
- D. Offers As-A-Service utility
- E. Easier to control and predict cost of technology
- F. No infrastructure to own or manage

Correct Answer: DEF

QUESTION 8

What is the Lenovo Data Center Group vision?

- A. Be the most trusted data center partner
- B. Be data center partner with highest number of business partners
- C. Be data center partner with largest portfolio of products
- D. Be the data center partner offering Software Defined Data Center building blocks

Correct Answer: C

QUESTION 9

Which three statements are true about the Bare Metal OS Provisioning capability of XClarity Administrator? (Choose three.)

- A. Supports deploying operating systems to 50 bare-metal servers concurrently
- B. Supports a maximum of 5 operating system images to be stored in the repository
- C. Supports a maximum of 10 operating system images to be stored in the repository
- D. Supports deploying CentOS Linux
- E. Supports deploying operating systems to 28 bare-metal servers concurrently
- F. Supports deploying SUSE Linux Enterprise Server (SLES)

Correct Answer: CEF

QUESTION 10

You are working with a retailer that wants to do a store refresh for hundreds of store locations distributed around the country. They want a server model in a tower format. Due to the small workload requirements, they want to use some of the less expensive processor SKUs such as the Core i3. The amount of system memory required for each server is 64 GB of memory, with no plans for expansion. Their storage needs are at least 30 TB, and they prefer SAS drives over SATA. One key requirement is for this system to have robust enterprise-class systems management capabilities with remote KVM, and virtual media mounting of ISO images is a must.

What is the most cost-efficient and recommended server for this customer?

- A. ST50 with XCC Advanced/Enterprise upgrade
- B. ST550 with XCC Advanced upgrade
- C. ST250 with XCC Advanced/Enterprise upgrade
- D. SR550 with XCC Standard

Correct Answer: A
