---

#### QUESTION 9

Universal Containers (UC) has a B2C customer department that uses person accounts to track and manage all B?C customers. UC has set up a B2C site using Salesforce Experience Cloud. The VP of B?C business wants to enable self-registration on the portal so customers can create their own user accounts.

What should the Experience Cloud consultant at UC recommend so that the new users self-registering on the B2C site are captured as person accounts In Salesforce?

- A. Create a custom self-registration page and Apex handler that creates a person account for each user self-registering

on the portal.

- B. Use the standard self registration configuration under Experience Workspace and leave the default Account field empty.
- C. Use the standard self-registration configuration under Experience Workspace that assigns users to a default business account, and then build a trigger on Account to create person accounts for each user.
- D. A Restrict the Account record type access to Person Account record type only for the Site Guest User, so any account created is by default a person account.

Correct Answer: D

---

### QUESTION 10

The Cloud Kicks (CK) site administrator is onboarding a new partner to its Experience Cloud site. They have created the partner as an Account, added the required Contacts, and ensured that the Welcome Email selection is checked. However, upon review, the site administrator has found that none of the partner users were able to register.

What should the site administrator do to ensure they are able to set up partner users correctly?

- A. Double-check that the partner profile has been added to the CK site.
- B. Ensure that the Account has been enabled as a partner Account.
- C. Double-check that the provided email addresses are correct.
- D. Ensure that the Contacts under the Account are enabled as partner users.

Correct Answer: D

---

### QUESTION 11

Ursa Major Solar would like to use three Record Detail components on a page to display object details for the Account, Case, and Opportunity objects for the user who is logged in to the company's portal. When they drop the components on the page, they are not getting the desired results.

What is causing this issue?

- A. The Record Detail component populates the recordID associated with the object for the page template, so this component will not work for this use case.
- B. The Record Detail component populates the record associated with the object for the page template so this component will only work on the Home page template
- C. The Record Detail component is a custom component and was not configured correctly
- D. The Record Detail component will only show record details for the Case object.

Correct Answer: A

---

**QUESTION 12**

Cloud Kicks has packaged its Customer Support Community. The community includes navigation menu items that link to standard and custom objects. Which two points should the Experience Cloud consultant consider when reviewing the package? Choose 2 answers

- A. Custom list views for custom objects are not included as dependencies.
- B. Custom list views for custom objects are included as dependencies.
- C. Custom list views for standard objects are not included as dependencies.
- D. Custom list views for standard objects are included as dependencies.

Correct Answer: BC

---

**QUESTION 13**

Universal Containers (UC) Salesforce org uses SAML 550 with a third-party identity provider for internal user authentication. UC now wants to extend this capability for Experience Cloud site users as well. What should the UC administrator ensure in order to successfully implement SAML 550 for the Experience Cloud site?

- A. Register the Experience Cloud site as an Identity Provider in SAML settings.
- B. Create a Visualforce page that receives and validates the SAML assertion.
- C. Use the site login URL as an endpoint where SAML assertion is made.
- D. Create a Connected App with custom attributes before configuring SAML settings.

Correct Answer: C

---

How can records owned by Customer Community users be shared with internal users?

- A. Create a Sharing Set that includes a Customer Community profile and create a Share Group for the Sharing Set.
- B. Create an owner-based sharing rule to share records owned by a Customer Community role with all internal users.
- C. Create a Share Group for a Customer Community profile that is not associated with a Sharing Set.
- D. Use the standard is Owned By External User checkbox on records to create a criteria- based sharing rule to share records owned by Customer Community users with all internal users.

Correct Answer: C

---

**QUESTION 15**

Dreamscape Flowers recently launched three Experience Cloud sites for North America, Europe, and Asia Pacific regions. The Community managers have installed the Salesforce Communities Management package and are getting useful

insights on adoption and engagement.

During the Community managers\' weekly meeting, the Community manager for Europe mentioned that the preconfigured Insights reports cannot be used for their Experience Cloud site.

What is the reason for this issue?

- A. The Community manager for Europe does not have System Administrator privileges.
- B. The preconfigured Insights reports need to be modified to meet GDPR requirements.
- C. The Experience Cloud site for Europe is not using Chatter which is needed to use the preconfigured Insights reports.
- D. The Experience Cloud site for Europe has more than a million users.

Correct Answer: C
